## CHURCHILL GIVEN AN OVERWHELMING VOTE OF CONFIDENCE

### CONDUCT OF WAR IS APPROVED

British House of Commons By Vote of 447 to 3 Sustains Prime Minister After he Discloses That Nearly 500,000 Imperial Soldiers Stand Guard Against Axis in Middle-East; Climaxes Duel of Words With David Lloyd George

#### DEPENDENT LARGELY ON HELP FROM U. S.

By the Associated Press  
London, May 7.—The British House of Commons gave Winston Churchill an overwhelming vote of confidence today after he had disclosed that nearly 500,000 imperial soldiers stand guard against the Axis in the Middle East and that Britain expects enough new American merchant ships to see her through 1942 in the battle of the Atlantic.

The prime minister proclaimed, too, a halt to the British retreat in the Mediterranean basin with the declaration:

"We intend to defend to the death and without thought of retirement Crete and Tobruk."

It is on Crete big island to the south of the Greek mainland, that the British and Greeks are now making their final stand as allies, it is in Tobruk, Libya, 80 miles from the Egyptian border, that a British garrison is holding out behind the Axis advanced lines.

The vote was 447 to 3, and thus ended a critical two-day debate on Britain's grave reverses on both shores of the Mediterranean.

It was climaxed by a sharp duel of words between Churchill, war's prime minister, and white-haired David Lloyd-George, who carried the empire through the World War.

Confidently, Churchill declared we have every reason to believe we shall be successful in holding the valley of the Nile, Suez and the mid-Mediterranean island Bastion of Malta.

The prime minister spoke after an hour of lashing by David Lloyd-George, who sharply demanded a "real war cabinet" and better organization of manpower.

With a touch of acrimony, Churchill retorted that the speech was not "particularly helpful at this period and not the speech one would have expected from a great war leader."

Captain A. J. M. Hudson, Civil Board of the Admiralty, told the cheering house "we have every reason to be encouraged by recent results achieved in the anti-U-boat campaign."

He added that U-boats claimed as sunk could not be announced without assisting the Axis.

The prime minister disclosed that General Sir Archibald Wavell, British Middle East commander, "has under his orders at the present moment nearly half a million men."

Churchill said the construction of new merchant ships by the United States, which added to our own large program of new building and repair, should see us through 1942.

After Lloyd-George criticized Foreign Secretary Anthony Eden for withholding the fact that "Turkey allowed German ships to pass through Bosphorus into the Dardanelles" to seize Greek islands, Churchill said "Turkey not being a belligerent, had no right to prevent merchant vessels from going through the Dardanelles."

Looking back, Churchill declared that "if we had again to tread that stony path, even with the knowledge we possess today, I for one would do the same thing again."

There was an outburst of cheers. Once more Churchill rejected the idea of a smaller war cabinet, asserting that the existing set-up "works easily and effectively" and "I do not propose to make any changes in it until further advised."

To a suggestion that he be succeeded by Sir Horace Wilson, he said: "I am not going to do that."

Backed by Howitzers Flown By RAF, Imperial Forces "Eject Enemy" From Dominating Positions at Airdrome, Officials Declare

#### ACTION BREAKS SIEGE

Cairo, Egypt, May 7.—(P)—Backed up by howitzers flown in by the RAF, British Imperial forces have "ejected the enemy" from dominating positions at Habbaniyah airdrome in Iraq, official reports said today.

The RAF communiqué, telling how the light artillery pieces were carried over the heads of the Iraq besiegers later to be set up and turned on their plateau positions, said that more than 300 prisoners were taken.

The assault to break the siege was staged yesterday.

(It was authoritatively reported in London that 26 Iraq officers and 408 men had been taken prisoners in action while Iraq casualties so far totaled about 1,000.)

Besides breaking the Iraqis' encircling front at Habbaniyah on the fifth day of siege, the British reported they had wrested control of the vital Mosul-Haifa oil pipeline from the troops of Rashid Ali Al Gailani.

In the Libyan fighting around beleaguered Tobruk, the British claimed a successful attack on Axis posts, but said operations were hampered by a severe sandstorm.

In the Basra area, at the head of the Persian gulf, "the situation continues quiet and unchanged," said the communiqué.

Habbaniyah is about 60 miles west of Baghdad, the capital, north of Basra.

An RAF communiqué said the post which Iraq forces had taken along the oil line, cutting off the flow of fuel to British forces in the Mediterranean fleet, was occupied by British ground troops after the Iraqis "signified that they wished to surrender by waving white flags" when a British scouting plane approached.

#### MOVE MADE TO HAVE ADMIRAL LAIS RELEASED

Rome, May 7.—(P)—Release of Admiral Alberto Laís, former Italian naval attaché at Washington, detained by British authorities at Bermuda, was understood in reliable quarters today to be in progress through the mediation of United States diplomatic officials.

The British halted Admiral Laís on his homeward voyage after his recall had been requested by the United States government in connection with the sabotaging of Italian ships in American harbors.

They are said to have taken this action under the impression that the Italian was holding Britain's minister in Yugoslavia, Ronald Ian Campbell, a virtual prisoner at Durazzo, Albania, after taking him there from Kotor, Yugoslavia.

With the Italians gradually bringing the British Belgrade legation from Albania to Italy, en route to Lisbon and London, the British were expected to allow Laís to proceed to Italy.

Italian authorities said they lacked any official notification of the detention of Laís and his release is expected to be arranged without formal representations.

By the Associated Press  
British Spitfires and German Messerschmitts fought a spectacular battle over the English channel today after a night of aerial fury in which Adolf Hitler's Luftwaffe again pounded British shipping yards and ports of arrival for United States war materials.

RAF night raiders attacked the north German port of Hamburg and the docks at Le Havre. Then, by daylight, bombers escorted by fighters roared across the strait of Dover toward the French coast on a new mission.

In the channel fight, these claims were made:

London—Four German fighters shot down, one RAF plane fell into the sea.

Berlin—Six British planes destroyed; German losses, none.

Waves of Nazi bombers smashed overnight at the big Clyde-side shipyards of Glasgow, Scotland, attacked Liverpool for the sixth straight night, and bombed northern Ireland for the third night in a row.

A British communiqué acknowledged that the raid on Glasgow was "on a fairly heavy scale," inflicting "considerable damage and a number of casualties."

The Germans said they also bombed Dumbarton and New Castle Harbors, Plymouth and Ipswich.

Nazi daylight raiders continued to stab at the Dover "invasion" corridor throughout the forenoon.

#### THREE HURT IN BLAST IN DUPONT FACTORY

Philadelphia, May 7.—(P)—A terrific blast that could be heard for miles ripped apart a varnish building and injured three workmen today inside the vast E. I. duPont de Nemours plant in West Philadelphia. Company workers quickly drenched flames with steam.

The explosion, occurring in a huge vat in which resin is mixed with other ingredients in the manufacture of paints and varnishes, demolished a 50 by 100-foot building. Firemen said the blast occurred when chemicals in the vat boiled over, the liquid igniting.

#### ROUND-UP MADE OF NAZI SEAMEN AROUND GOTHAM

New York, May 7.—(P)—Squads of detectives and immigration inspectors rounded up more than 100 German seamen today, planning to send them to an internment camp in a western city.

Police officials said they had been told by immigration officers that the round-up was ordered from Washington during the night and that they understood it was nation-wide.

Armed with warrants charging the sailors with overstaying their leave here, the officers began invading hotel rooms, furnished rooms and taverns at 4 a m. E. S. T.

Two hours later, the seamen—formerly employed on Standard Oil Company tankers—were herded into the U. S. customs barge office, with Ellis Island their next stop before being sent west.

The move came a day after the transfer of 125 Italian seamen from the island to an internment camp in an unnamed western city.

The Italians had been interned since the U. S. took over 69 Axis and Danish ships six weeks ago in American ports.

#### DESCRIBED AS A TRIAL BALLOON BY OPPONENT

BULLETIN  
Washington, May 7.—(P)—Secretary Knox said today that the navy is "reader than ever" to undertake the job of assuring delivery of war supplies to Britain, if and when it is assigned to such duty.

The navy department chief made the statement at a press conference in commenting on a speech last night by Secretary of War Stimson in which Stimson advocated use of the United States navy to assure a victory for Britain in the battle of the Atlantic. At the same time, Knox disclosed that the navy was taking over "the seagoing activities" of the coast guard. The process, he said, amounts to a "transfer bodily of the coast guard ships and their crews."

Washington, May 7.—(P)—A blunt plea for use of the U. S. navy "right now" in the battle of the Atlantic, which the belief today that some such strategy is now receiving administration consideration.

Special importance was attached to Stimson's words in many quarters because Stephen Early, presidential secretary, said it could be assumed that the War Department chief discussed his address in advance with Mr. Roosevelt.

Stimson was the fifth cabinet officer to speak so strongly in recent weeks for more dynamic action to guarantee the success of the aid-to-Britain program, but he was the first to advocate a specific course—use of the navy.

In advocating this prompt naval assistance, Stimson told the nation in his radio address last night that Germany had extended her zone of unrestricted sea warfare into the western hemisphere.

He also assailed the character of German submarine warfare in the North Atlantic, calling it "illegal" and a "violation of law and humanity."

The U-boat tactics, he said, were identical with those of 1917 when they "caused the president and congress to take up arms in defense of the freedom of the seas."

The charge that Germany had extended the unrestricted zone to hemisphere waters and "forbidden us to enter" was the first such accusation to come from a high administration official. It was defense preparations of the dominion and this country.

The immediate task of the economic bureau it was said, will be to expedite the program contemplated in the agreement for joint U. S.-Canadian productive efforts which President Roosevelt and Prime Minister MacKenzie King (Turn To Page Eleven)

By HENRY C. CASSIDY  
Moscow, May 7.—(P)—Joseph Stalin, replacing Vyacheslav M. Molotov as premier, has taken over open leadership of the Soviet Union which he had guided from behind the scenes as secretary-general of the Communist party.

Molotov, premier of the Council of People's Commissars for 11 years, continues in high position as commissar of foreign affairs. The office he took over from Maxim Litvinov two years ago, only a few months before the Soviet-German non-aggression pact was signed.

A hint that Molotov's star might be descending was seen by some observers last February when his wife was dropped as a candidate for the Communist party's central committee.

A British radio broadcast heard last night in New York stated that Molotov's replacement of Litvinov preceded a sudden swing of the government.

DEMOCRATS OF STATE DISCUSS PLANS FOR 1942  
Harrisburg, May 7.—(P)—Democratic leaders celebrating induction of two of their candidates in the state fiscal offices, declared today this was the start of the party's "return" to control of Pennsylvania's government.

"This is our opportunity to give Pennsylvania's government back to the people," declared U. S. Senator Joseph F. Guffey in a speech to the Young Democrats last night. The occasion climaxed two days of activities in which G. Harlow Wagner and F. Clair Ross were inaugurated as state treasurer and auditor general respectively.

Guffey said he had never seen "any administration so hopelessly and justly discredited" as that of Republican Governor Arthur H. James. He said it brought on "a breakdown of essential government services under Republican rule... most brazen budget padding, mounting pavilions, curtailment of important functions in the interest of political patronage."

Guffey urged the Democrats to "perfect" their organizations for the November municipal elections because "it is the strength of these small officeholders which nurtures the party machine."

Indianapolis, May 7.—(P)—High explosive shells of old French 75's boomed throughout the reservation today to rattle obligate soldiers of the 110th Infantry re-enacted the World War battle of Grumettes woods.

Grumettes woods was a key position in the German defensive line in France during July 1918, for the 110th won high fame for the manner in which it penetrated the enemy forces and helped them to flight.

The 110th massed in full battle order early in the day and in the afternoon marched to the battle line located on the field between Blue and Red.

Scrambled mountains. The force was commanded by Lt. Col. James S. Giffey, Jr., of Lafayette.

In the original battle, Grumettes woods was strongly manned by enemy infantry and machine guns stationed there to delay the Americans' approach until the German army could retire to the Vesle river, 35 miles north.

Major General Edward Martin, commander of the 28th Division here as "Major Martin" commanded the 110th troops that stormed Grumettes woods and routed the Germans.

The demonstration was arranged to familiarize officers and non-commissioned officers with the appearance and characteristics of infantry assault reinforced with field artillery supporting weapons.

Rehearsal was given to the demonstration by the actual cannonading.

The firing was close enough to the scene to give the soldiers the "feel" of advancing behind an artillery barrage.

Conference of State Council of Defense, Headed By Governor, is Held in Vast Forum of Educational Building in Capital

**HUNDREDS INVITED**

Harrisburg, May 7.—(P)—Dr. Arnold C. Marts, director of Pennsylvania's new defense council, declared today "civilian morale" is the foremost problem in the campaign to build up this state's preparedness.

Addressing the "mobilization" meeting of defense-minded citizens called to the capitol by Governor James to get the drive under way, Marts asserted:

"This matter of civilian morale is at the very core of the program."

In this connection, he warned against "Fifth Columnists who withhold cooperation deliberately" but added that "there are Sixth Columnists—sleepy or stupid souls who just won't wake up."

He said the council will issue special bulletins soon on the relations of public health to defense, recreation, welfare and consumer interests, and on an emergency fire-fighting plan.

The "mobilization" conference of the State Council of Defense, headed by Governor Arthur H. James, was called for 2 p. m. (EST) in the vast forum of the educational building on Capitol Hill.

With many of its members planning an active part, the Senate arranged to meet at 10:30 a. m. and the House at 11 a. m. for brief sessions.

The defense council assigned to Paul V. McNutt, federal security administrator, the honor of making the keynote speech. Sharing the program with him were Governor James, Dr. Arnold C. Marts, director of the council, and Lieutenant Governor Samuel S. Lewis.

The council was created by the 1941 legislature to stimulate Pennsylvania's national defense production and to coordinate all local efforts directed at the safety of the state and nation.

As the campaign was touched off, Dr. Marts declared it was "urgent" for municipalities to set up "immediately" local defense councils to cooperate with the state agency, "lest the people of Pennsylvania be caught unprepared for the perils that may lie ahead."

It was the first conference of this kind—on defense—held in this state since the World War. Hundreds of invitations to outstanding citizens were sent out and acceptance indicated, officials said, and the 1,800-seat capacity of the forum would be taxed.

Special invitations to make two-minute addresses were extended to Dr. Hubley Owen, representing the mayor of Philadelphia; Clarence C. **ASCAP Music May Soon Be On the Air**

New York, May 7.—(P)—The Mutual Broadcasting System's plan to return music of the American Society of Composers, Authors and Publishers to its air lanes will be voted on Saturday by the network's 175 member and affiliated stations.

A Mutual spokesman said that should the meeting in St. Louis approve the plan, ASCAP songs would be reinstated "not later than this week-end."

**LESS THAN HALF OF QUOTA RAISED FIRST TWO DAYS**

General Agreement is That Full Response From Every Source Must Be Obtained to Accomplish Purpose of Raising Sum Required

At the first report meeting in the current campaign of the Warren Community Chest, held last evening following a dinner at the Y. W. C. A., workers reported that they had raised \$20,188.10 or nearly half of the quota of \$41,800 which has been asked for the seven agencies participating in the Chest organization.

While the amount reported at the meeting last evening compares with a total of \$17,521 reported at the initial meeting last year, a closer analysis reveals that more prospects have been seen in the corresponding time, it was pointed out.

**STALIN IN OPEN LEADERSHIP OF SOVIET RUSSIA**

By HENRY C. CASSIDY  
Moscow, May 7.—(P)—Joseph Stalin, replacing Vyacheslav M. Molotov as premier, has taken over open leadership of the Soviet Union which he had guided from behind the scenes as secretary-general of the Communist party.

Molotov, premier or chairman of the Council of People's Commissars for 11 years, continues in high position as commissar of foreign affairs—the office he took over from Maxim Litvinov two years ago, only a few months before the Soviet-German non-aggression pact was signed.

(A hint that Molotov's star might be descending was seen by some observers last February when his wife was dropped as a candidate for the Communist party's central committee.)

(A British radio broadcast heard last night in New York recalled that Molotov's replacement of Litvinov preceded a sudden swing of (Turn To Page Eleven)

**DEMOCRATS OF STATE DISCUSS PLANS FOR 1942**

Harrisburg, May 7.—(P)—Democratic leaders, celebrating induction of two of their candidates in the state's fiscal offices, declared today this was the start of the party's "return" to control of Pennsylvania's government.

"This is our opportunity to give Pennsylvania's government back to the people," declared U. S. Senator Joseph F. Guffey in a speech to the Young Democrats last night. The occasion climaxed two days of activities in which G. Harold Wagner and F. Clair Ross were inaugurated as state treasurer and auditor general respectively.

Guffey said he had never seen "any administration so hopelessly and justly discredited" as that of Republican Governor Arthur H. James. He said it brought on "a breakdown of essential government services under Republican rule, . . . most brazen budget juggling, mounting payrolls, curtailing of important functions in the interest of political patronage."

Guffey urged the Democrats to "perfect" their organizations for the November municipal elections because "it is the strength of these small officeholders which nurtures (Turn To Page Nine)

**SHOWERS REPORTED TO BE MOVING THIS WAY**

Pittsburgh, May 7.—(P)—Showers moving into Pennsylvania from Ohio and Indiana today were expected to end the driest 36-day period in the history of western Pennsylvania.

Weatherman W. S. Brotzman said that since the first week in April only 42 inch of rain had fallen.

As a result of the arid spell wells and cisterns have been drying up and many farmers have been compelled to haul drinking water for cattle.

**TWIN BOARDS TO BE SET UP BY U. S. AND CANADA**

BY LLOYD LEHRBAS  
Washington, May 7.—(P)—The United States and Canada will set up closely collaborating economic defense boards in the immediate future, it was learned authoritatively today, to keep up mobilization of North American resources for aid-to-Britain and hemisphere defense.

In the economic, industrial and financial fields, the new boards would complement the work of the joint U. S.-Canadian defense board set up a year ago to coordinate the military and naval defense preparations of the dominion and this country.

The immediate task of the economic boards, it was said, will be to expedite the program contemplated in the agreement for joint U. S.-Canadian productive efforts which President Roosevelt and Prime Minister Mackenzie King (Turn To Page Eleven)

**GAP RESOUNDS TO CANNON AND MACHINE GUN FIRE IN RE-ENACTMENT OF WORLD WAR BATTLE**

Indiantown Gap, May 7.—(P)—High explosive shells of old French 75's boomed throughout the reservation today to rattling obligation of rifle and machine gun fire as soldiers of the 110th Infantry reenacted the World War battle of Grimpettes woods.

Grimpettes woods was a key position in the German defensive line in France during July 1918, and the old 110th won high fame for the manner in which it penetrated the enemy forces and helped put them to flight.

The current 110th massed in full war strength early in the day and in the afternoon marched to the "battlefield" located on the field artillery range between Blue and Second mountains. The force was commanded by Lt. Col. James S. Gallagher of Latrobe.

In the original battle, Grimpet-

**WARFARE AT SEA IS ASSAILED**

Special Importance is Attached to Blunt Plea of Secretary of War in Many Quarters Because Presidential Secretary Admits it Could be Assumed Contents were Considered in Advance By Chief Executive

DESCRIBED AS A TRIAL BALLOON BY OPPONENT

**BULLETIN**  
Washington, May 7.—(P)—Secretary Knox said today that the navy is "readier than ever" to undertake the job of assuring delivery of war supplies to Britain—if and when it is assigned to such duty.

The navy department chief made the statement at a press conference in commenting on a speech last night by Secretary of War Stimson in which Stimson advocated use of the United States navy to assure a victory for Britain in the battle of the Atlantic. At the same time, Knox disclosed that the navy was taking over "the seagoing activities" of the coast guard. The process, he said, amounts to a "transfer bodily of the coast guard ships and their crews."

Washington, May 7.—(P)—A blunt plea from Secretary of War Stimson for use of the U. S. navy "right now" in the battle of the Atlantic strengthened the belief today that some such strategy is now receiving administration consideration.

Special importance was attached to Stimson's words in many quarters because Stephen Early, presidential secretary, said it could be assumed that the War Department chief discussed his address in advance with Mr. Roosevelt.

Stimson was the fifth cabinet officer to speak out strongly in recent weeks for more dynamic action to guarantee the success of the aid-to-Britain program, but he was the first to advocate a specific course—use of the navy.

In advocating this prompt naval assistance, Stimson told the nation in his radio address last night that Germany had extended her zone of unrestricted sea warfare into the western hemisphere.

He also assailed the character of German submarine warfare in the north Atlantic, calling it "illegal" and "violation of law and humanity."

The U-boat tactics, he said, were identical with those of 1917 when they "caused the president and congress to take up arms in defense of the freedom of the seas."

The charge that Germany had extended the unrestricted zone to hemisphere waters and "forbidden us to enter" was the first such accusation to come from a high administration official. It was thought that Stimson referred to the fact that the Nazi danger zone now extends to within a few miles of the coast of Greenland, where U. S. defense bases are being established.

Stimson's mention of the doctrine of freedom of the seas coupled with the parallel he drew between (Turn To Page Eleven)

tes woods was strongly manned by enemy infantry and machine guns stationed there to delay the Americans' approach until the German army could retire to the Vesle river, 15 miles north.

Major General Edward Martin, commander of the 28th Division here, as "Major Martin" commanded the 110th troops that stormed Grimpettes woods and routed the Germans.

The demonstration was arranged to familiarize officers and non-commissioned officers with the appearance and characteristics of infantry assault reinforced weapons.

Realism was given to the demonstration by the actual cannonading.

The firing was close enough to the scene to give the soldiers the "feel" of advancing behind an artillery barrage.

In the original battle, Grimpet-

## SOCIAL WELFARE CONFERENCE TO BE CONDUCTED

Six northwestern Pennsylvania counties are to be represented at a citizens' conference on social welfare for Region 1 of the Pennsylvania Conference on Social Work.

The participation of Community Welfare Services in National Defense will be the theme of the morning, luncheon and afternoon sessions in Kingsley Hall of Meadville's Stone Methodist church. The conference begins at 10 a. m., EST, following a one-hour registration period.

Among those who will take part in the discussions are Lee Hanchette, Grove City, field representative of the American Red Cross; Willard E. Sollenberger, Harrisburg, director of public relations for the Pennsylvania Department of Public Assistance; Rudolph Danstedt, director of family welfare and public relief services, Federation of Social Agencies of Pittsburgh; Dr. Guy E. Buckingham, Allegheny College professor of psychology and education; and Faber Stevenson, director of the Harrisburg Welfare Federation.

The luncheon speaker will be Alvin Guyler, of the Pennsylvania Charities Association, now with the office of the federal coordinator of health, recreation, welfare and related services.

Counties in Region 1, to be represented at the meeting, are Erie, Crawford, Mercer, Venango, Warren and Forest.

James H. Auld, of Mercer, heads the executive committee, whose other members are Dr. Morgan Barnes, Mercer; Miss Maryann H. Brugger, Warren; Miss Helen C. Eastwood and Prof. Lee D. McClean, Meadville; Harold P. Dundon, Erie; Mrs. Ella H. Bayliss, Titusville; and Miss Clara S. Beach, Franklin.

## CYCLISTS HOLD ANNUAL RACES HERE TUESDAY

The annual bike races, second event in the National Youth Week observance here, sponsored by the Y. M. C. A., were held yesterday afternoon on Madison avenue, between Parker street and Central avenue, with a record crowd of parents and other interested persons on hand.

Unscheduled thrills were provided when Gib Mead catapulted head-long over his handlebars when his rear wheel locked at the finish line and when Gail Parks did a front roll and landed on his feet after colliding with another contestant just beyond the finish line. Both boys emerged unharmed and ready to continue the race.

Results of the races:  
Boys—First, Wayne Fitzgerald, Jefferson; second, Teddy Shattuck, South street; third, Dick Olson, South street.

Girls—First, Betty Hubbs, East street; second, Dolores Massa, South street; third, Olga Glassman, East street.

The afternoon at four o'clock the annual fish chase for boys will be held in the "X" pool. Tomorrow's event is a jockey race at 4 p. m. on Prospect street between Division and Fifth. The annual Gra-Y track meet will be held at Beatty Field on Friday afternoon.

The week's program closes on Saturday. Selected boys from the boys' council will take over city offices from 11 a. m. to 12 noon on that day and the marble finals will be held on the South Side playground at 3 p. m.

### DOUBLE FEATURE OFFERING

AT THE LIBRARY THEATRE

TODAY AND THURSDAY

"The Round-Up"

Here's one time you won't mind being roped into something! It's better than a circus—more thrilling than a rodeo—more action than a major heavy-weight fight—It's a real, honest-to-Injun cowboy round-up, that will keep you sitting on the edge of your seat throughout this famous, traditional spectacle of the West. "The Round Up" comes to town today and Thursday, the arena is the Library theatre. You'll see how Richard Dix and Preston Foster fight the love code of the West over beautiful Patricia Morison.

'So Ends Our Night' opens today and Thursday at the Library Theatre. See it!"

### "PHILADELPHIA STORY" AT THE COLUMBIA THEATRE

Today-Thursday-Friday

Cary Grant, Katharine Hepburn and James Stewart form the perfect starring comedy team in "The Philadelphia Story," picture of the hilarious Philip Barry, New York stage success, which comes today, Thursday and Friday at the Columbia theatre.

Each has a made-to-order role. Grant plays Miss Hepburn's ex-husband, who turns up when she is about to be wedded again. Miss Hepburn is the girl who demands perfection in a husband and has to learn that it can't be had. She played the role for fifty-two solid laugh weeks on Broadway. Stewart is seen as a keyhole magazine reporter, sent to cover the wedding, who also falls in love with the girl. Every line of dialogue is a funnybone tickler, with all three sharing the amusing situations as Grant tries to win Miss Hepburn back, while Stewart finds himself in the middle. Played against a background of high Philadelphia society life, the action comedy was directed by George Cukor.

LARGE NUMBER AT CONCERT OF YOUNGSHVILLE HI

Youngsville, May 6.—The high school auditorium was filled Monday evening when Youngsville high school orchestra presented a splendid concert under the direction of Music Supervisor Byron Swanson.

The program opened with the full orchestra playing "Entrance" and "March of Peers" from Iolanthe. Handel's "Minuet" and "March Fantastique" were also featured.

George Walters in his clarinet solo "Concert No. One", Paulson, was encored and gave as his second selection "The Bumble Bee".

"Bless Your Heart" by Vargas and a group of "Holiday Sketches" played by the orchestra were followed by a piano number "Valse", Mokrejs played by Vernon Jones who responded to applause by a second piano solo.

The "Light Cavalry Overture" by the orchestra was their closing number before the intermission.

Director Swanson gave a talk concerning the various instruments in the orchestra and members of the orchestra illustrated the tones of each class of instrument by the playing of a few notes.

Following the intermission, the band alone was on the platform and played two numbers, "Valse Triste" and "None But the Lonely Heart".

The concert closed with three numbers by the orchestra, "In An Old Fashioned Garden", "Dancing Moonbeams" and "The Mystery of Night".

Supervisor Swanson, near the close of the program, was presented a gift of appreciation of his work by the orchestra members. Miss Marcia Johnson made the presentation in behalf of the orchestra.

Appreciation was expressed for those who have trained members of the orchestra through private lessons and also for the assistance of Miss Charming who played the cello and for Walter Sheffer who had charge of the lighting effects.

America's Card Authority

I am pleased to see tournament bridge increasing in popularity throughout the nation. Tournament bridge provides an economical pastime for a large number of people. It not only gives them a chance to meet friends, but it offers them competition and a little applause when they win. The Southeastern Sectional Championships, in Coral Gables, Fla., established new attendance records for every event.

Some of the outstanding players of the nation were attracted to the tournament and once again Mrs. A. M. (Helen) Sobel of New York, crashed through for two victories. For a long time Mrs. R. C. (Sally) Young, of Philadelphia, has been acclaimed the number one woman bridge player, but Mrs. Sobel's recent victories probably entitle her to that position today.

At the Southeastern Mrs. Sobel won two events, the women's pair and the team-of-four. One of her strongest assets in tournament play is her mathematical accuracy, as demonstrated in today's hand, in which she held the South cards.

West cashed three rounds of clubs. On the last, East discarded the deuce of diamonds. West then led a heart.

Now there really is nothing to the play of the hand. Declarer need only cash his 10 tricks. Yet, strange to say, all South players except Mrs. Sobel went down one, losing a trump trick.

All the other players cashed the ace of spades first. Mrs. Sobel, as she says, "just from habit," cashed the queen of spades first. This is the correct safety play, in case East has all four trumps.

"DUSTY" MILLERS  
Because they have a dusty appearance, due to tiny, easily shattered scales that cover their wings, moths also are known as millers.

DEMAND FOR EFFICIENCY!

That's Why Heavy Power Installations and Chrysler Cars Have Fluid Drive

"Immediate adaptation to variable power load"... that's how science describes the function of Fluid Drive.

To give gasoline engines the fluid flexibility of steam was long the goal of research engineering.

Efficiency and economy were demanded... for industry must count the last penny of cost.

Flexibility to meet all load conditions... scientific control of power slippage in place of the hit and miss power loss of individual driving... ability to pick up great loads easily... these were the economic requirements of industry.

Fluid Drive was the answer! Today the identical principle that drives your Chrysler Car is efficiently serving in Diesel powered ships... great double-deck busses... heavy tractor-trucks... giant industrial refrigeration plants.

Fluid Drive gives industry, as it gives the driver of a Chrysler Car, double economy... efficient application of power... plus longer life because of lessened strain from jerks and jolts.

Now you can have this two-way efficiency in your own car—if it's a Chrysler—and in addition... ease, smoothness and silence possible only with genuine Fluid Drive.

Owners of Fluid Drive Chryslers, for the third year, are reporting greater economy than from their former cars.

Why shift gears? Why stumble away when you can glide away? Chrysler Fluid Drive—jerk-free and jolt-free—is easier on both car and driver. The nearest Chrysler dealer cordially invites you to make a real test of Fluid Drive efficiency and ease.

Man About Manhattan

By GEORGE TUCKER

NEW YORK.—Beg pardon: Some days ago this department commented on the Broadway "debut" of Philip Ober in "Mr. and Mrs. North." It seems that Mr. Ober has been playing on Broadway six or seven years, and his friends throughout the country have been wiring their congratulations on his "debut." A little note from him this morning was enclosed with a clipping from his daughter, Emily, who puts a mild blast on me for overlooking her father's past experiences. I don't blame her a bit, and if I see her I'll tell her so.

Beg pardon again: "In a recent column of yours," writes Phoebe C. Marks, World Wide Advertising Corp., "you said, 'New York has 23,628 taxicabs...' I hate to upset all your calculations, but you will find that the actual number of taxicabs in New York City is 11,600. No doubt your source of information was the New York Times, which previously printed the misleading information and later corrected it when we called the matter to their attention."

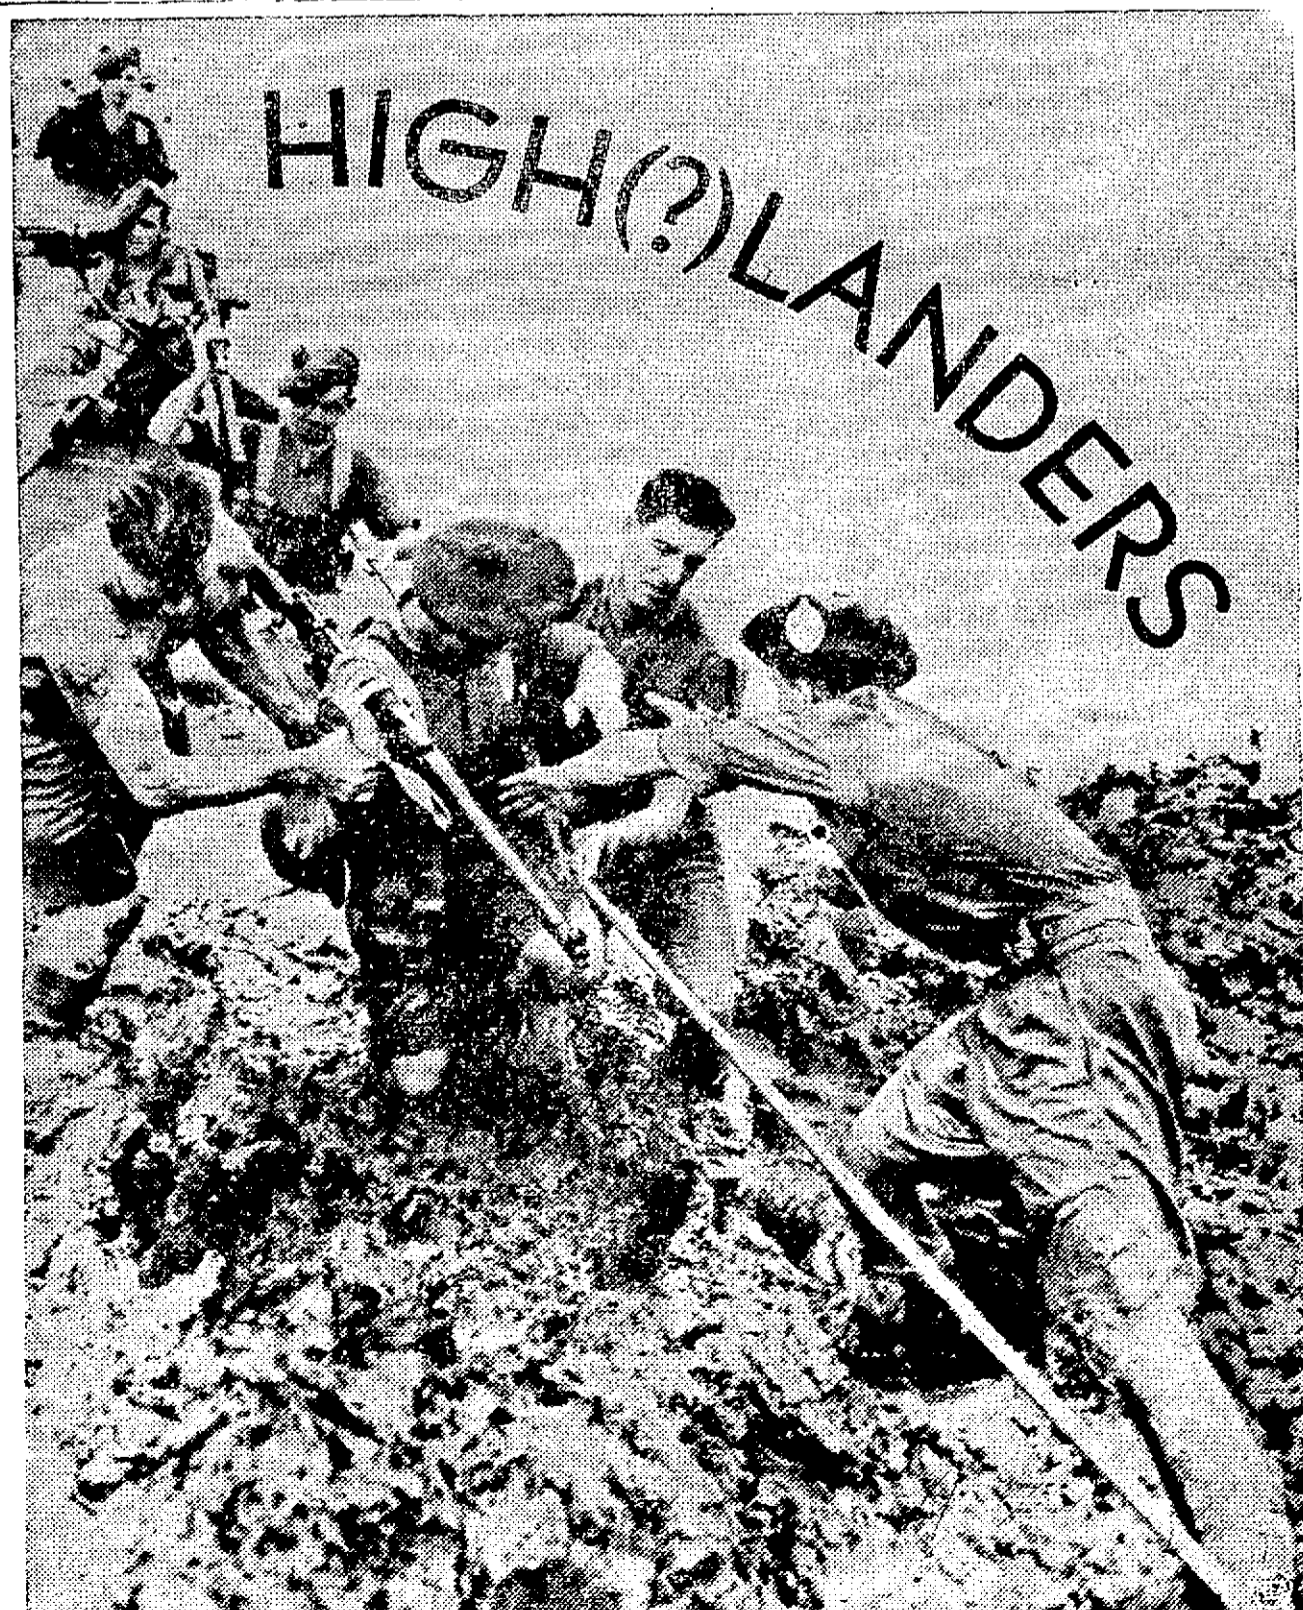

No, the Times wasn't our source of information, but if the number we gave was wrong we certainly aren't going to let the Times show us up at doing the main thing. We find the number of taxicabs in New York is 11,600.

BEG pardon a third time, with reservations. This has to do with the Fulton Street fish mar-

kets. Some time ago we said the place smells. We have said the Fulton markets smell for years, and they have smelled—to high heaven—for years. They make strong men grow pale and women and children faint. The odors of the Fulton area are so terrific that you think about them for days. But now comes a nice, friendly note from the markets saying we are wrong. There are no longer any smells there, the note says. To prove it, come down and have lunch, they say. If this is on the level, a great miracle has been brought about. But until we see it, without being able to smell it, apologies are offered only with reservations.

William Wyler thinks the films would do themselves a service if they permitted rehearsals and then shot the scenes in actual sequence. Wyler is a short, dark Alsatian with wide eyes and a wide, indulgent grin. He is a director and his current assignment is the important one of directing Bette Davis in "The Little Foxes."

His idea is that shooting fragments of scenes that come in the middle of a story and following with the ending or a scene from the beginning of a film confuses the players too much and robs them of assurance. If you shot the story from beginning to end, as it is written, the result would be a smoother, more finished job. Sounds logical.

DEMAND FOR EFFICIENCY!

That's Why Heavy Power Installations and Chrysler Cars Have Fluid Drive

"Immediate adaptation to variable power load"... that's how science describes the function of Fluid Drive.

To give gasoline engines the fluid flexibility of steam was long the goal of research engineering.

Efficiency and economy were demanded... for industry must count the last penny of cost.

Flexibility to meet all load conditions... scientific control of power slippage in place of the hit and miss power loss of individual driving... ability to pick up great loads easily... these were the economic requirements of industry.

Fluid Drive was the answer! Today the identical principle that drives your Chrysler Car is efficiently serving in Diesel powered ships... great double-deck busses... heavy tractor-trucks... giant industrial refrigeration plants.

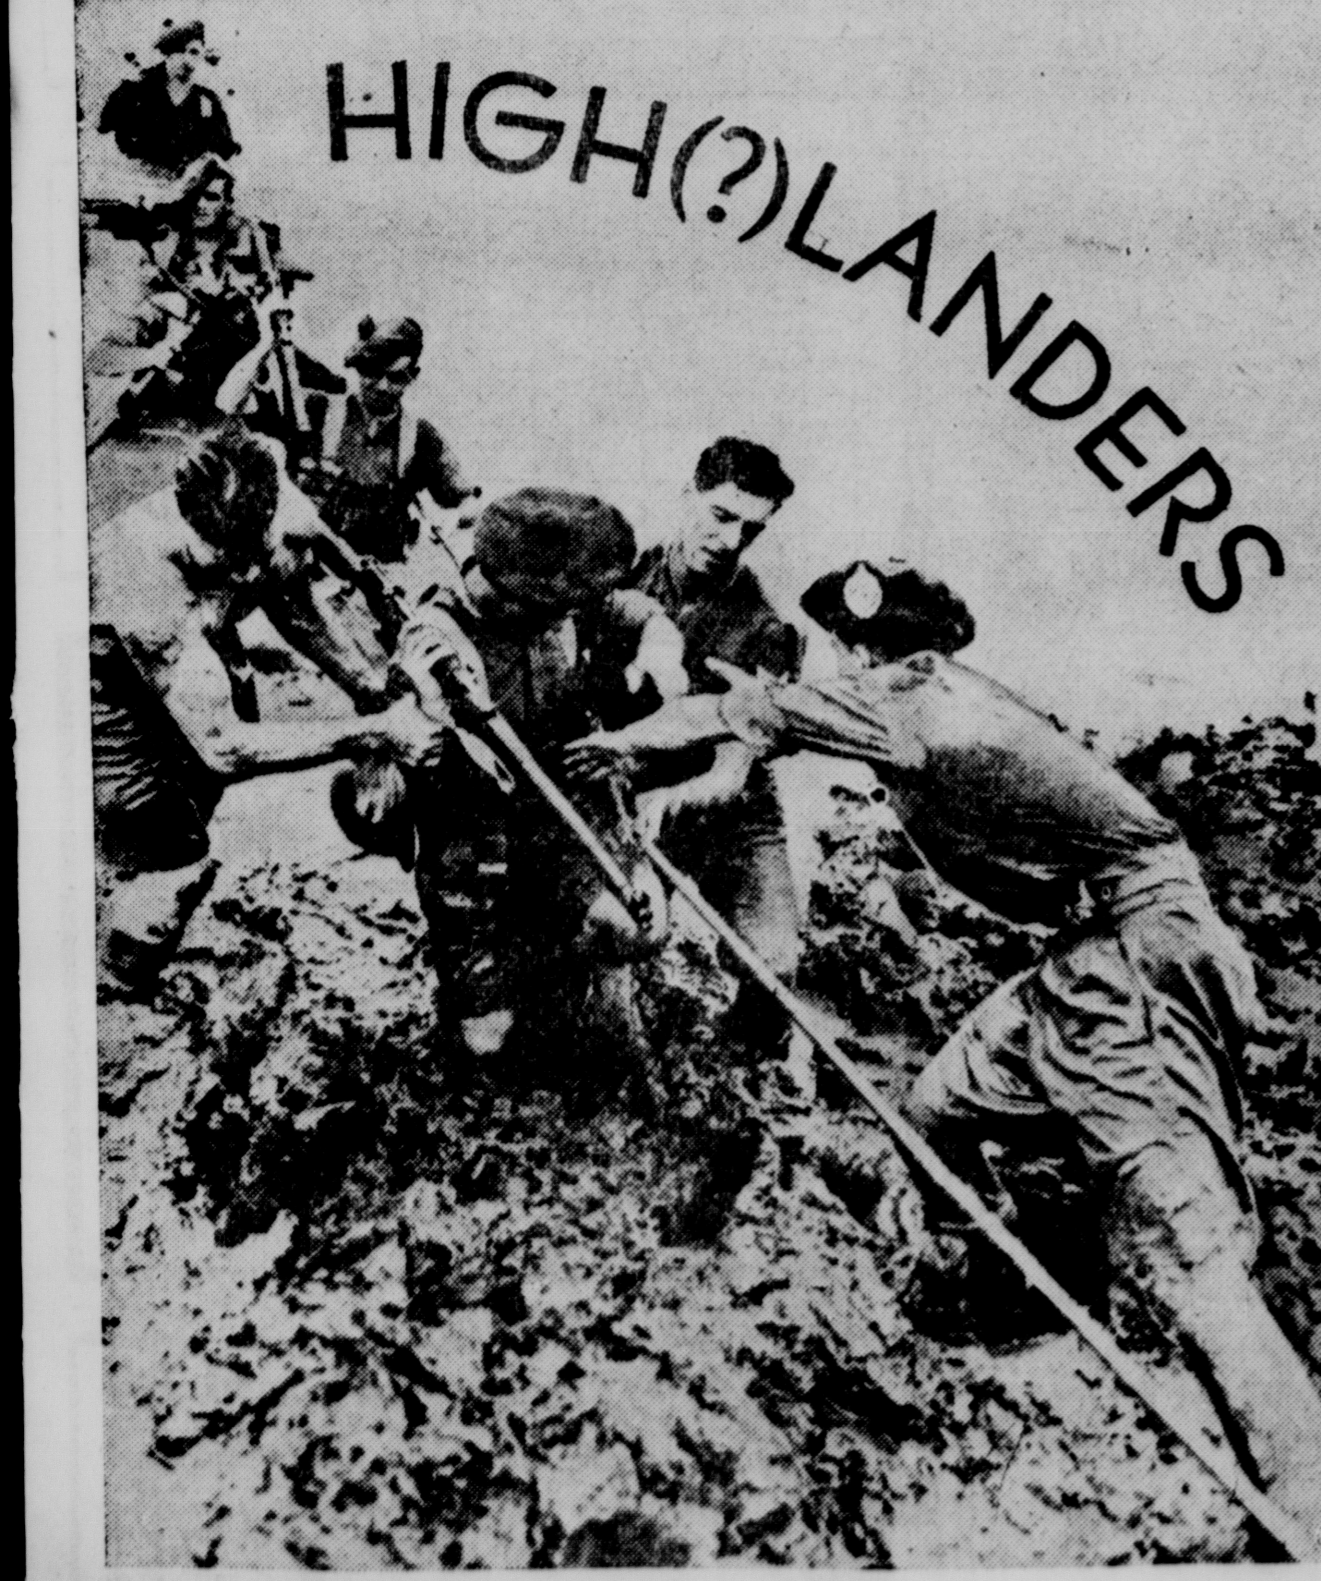

Fluid Drive gives industry, as it gives the driver of a Chrysler Car, double economy... efficient application of power... plus longer life because of lessened strain from jerks and jolts.

Now you can have this two-way efficiency in your own car—if it's a Chrysler—and in addition... ease, smoothness and silence possible only with genuine Fluid Drive.

Owners of Fluid Drive Chryslers, for the third year, are reporting greater economy than from their former cars.

Why shift gears? Why stumble away when you can glide away? Chrysler Fluid Drive—jerk-free and jolt-free—is easier on both car and driver. The nearest Chrysler dealer cordially invites you to make a real test of Fluid Drive efficiency and ease.

NEW YORK—Beg pardon:

Some days ago this department commented on the Broadway "debut" of Philip Ober in "Mr. and Mrs. North." It seems that Mr. Ober has been playing on Broadway six or seven years, and his friends throughout the country have been wiring their congratulations on his "debut." A little note from him this morning was enclosed with a clipping from his daughter, Emily, who puts a mild blast on me for overlooking her father's past experiences. I don't blame her a bit, and if I see her I'll tell her so.

Beg pardon again: "In a recent column of yours," writes Phoebe C. Marks, World Wide Advertising Corp., "you said, 'New York has 23,628 taxicabs...' I hate to upset all your calculations, but you will find that the actual number of taxicabs in New York City is 11,600. No doubt your source of information was the New York Times, which previously printed the misleading information and later corrected it when we called the matter to their attention."

No, the Times wasn't our source of information, but if the number we gave was wrong we certainly aren't going to let the Times show us up at doing the manly thing. We find the number of taxicabs in New York is 11,600.

BEG pardon a third time, with reservations. This has to do with the Fulton Street fish mar-

kets. Some time ago we said the place smells. We have said the Fulton markets smell for years, and they have smelled—to high heaven—for years. They make strong men grow pale and women and children faint. The odors of the Fulton area are so terrific that you think about them for days. But now comes a nice, friendly note from the market saying we are wrong. There are no longer any smells there, the note says. To prove it, come down and have lunch, they say. If this is on the level, a great miracle has been brought about. But until we see it, without being able to smell it, apologies are offered only with reservations.

William Wyler thinks the films would do themselves a service if they permitted rehearsals and then shot the scenes in actual sequence. Wyler is a short, dark Alsatian with wide eyes and a wide, indulgent grin. He is a director and his current assignment is the important one of directing Bette Davis in "The Little Foxes."

His idea is that shooting fragments of scenes that come in the middle of a story and following with the ending or a scene from the beginning of a film confuses the players too much and robs them of assurance. If you shot the story from beginning to end, as it is written, the result would be a smoother, more finished job. Sounds logical.

I am pleased to see tournament bridge increasing in popularity throughout the nation. Tournament bridge provides an economical pastime for a large number of people. It not only gives them a chance to meet friends, but it offers them competition and a little applause when they win. The Southeastern Sectional Championships, in Coral Gables, Fla., established new attendance records for every event.

Some of the outstanding players of the nation were attracted to the tournament and once again Mrs. A. M. (Helen) Sobel of New York, crashed through for two victories. For a long time Mrs. R. C. (Sally) Young, of Philadelphia, has been acclaimed the number one woman bridge player, but Mrs. Sobel's recent victories probably entitle her to that position today.

At the Southeastern Mrs. Sobel won two events, the women's pair and the team-of-four. One of her strongest assets in tournament play is her mathematical accuracy, as demonstrated in today's hand, in which she held the South cards. West cashed three rounds of clubs. On the last, East discarded the deuce of diamonds. West then led a heart.

Now there really is nothing to the play of the hand. Declarer need only cash his 10 tricks. Yet, strange to say, all South players except Mrs. Sobel went down one, losing a trump trick.

All the other players cashed the ace of spades first. Mrs. Sobel, as she says, "just from habit," cashed the queen of spades first. This is the correct safety play, in case East has all four trumps.

LARGE NUMBER AT CONCERT OF YOUNGSHVILLE HI

Youngsville, May 6.—The high school auditorium was filled Monday evening, when Youngsville high school orchestra presented a splendid concert under the direction of Music Supervisor Byron Swanson.

The program opened with the full orchestra playing "Entrance" and "March of Peers" from Iolanthe. Handel's "Minuet" and "March Fantastique" followed.

George Walters in his clarinet solo "Concert No. One", Paulson, was encored and gave as his second selection "The Bumble Bee".

"Bless Your Heart" by Vargas and a group of "Holiday Sketches" played by the orchestra were followed by a piano number "Valsek", Mokrejs played by Vernon Jones who responded to applause by a second piano solo.

The "Light Cavalry Overture" by the orchestra was their closing number before the intermission.

Director Swanson gave a talk concerning the various instruments in the orchestra and members of the orchestra illustrated the tones of each class of instrument by the playing of a few notes.

Following the intermission, the band alone was on the platform and played two numbers, "Valse Triste" and "None But the Lonely Heart".

The concert closed with three numbers by the orchestra, "In An Old Fashioned Garden", "Dancing Moonbeams" and "The Mystery of Night".

Supervisor Swanson, near the close of the program, was presented a gift of appreciation of his work by the orchestra members. Miss Marcia Johnson made the presentation in behalf of the orchestra.

Appreciation was expressed for those who have trained members of the orchestra through private lessons and also for the assistance of Miss Gherring who played the cello and for Walter Sheffer who had charge of the lighting effects.

### HIGH SCHOOL MUSIC

Commenting on a subject which has been considered  
in this column, the Kane Republican has the following  
to say:

"Discussion continues to be extremely violent concern-  
ing the bill before the Pennsylvania legislature to limit  
High school bands and orchestras to performances in  
their own building or for purposes strictly in connection  
with the school activities.

"Whatever is back of this bill, and there are many  
reports placing this responsibility, it does not seem rea-  
sonable to force High school students to refrain from  
public spirited donations of their ability and talent. If  
a community enterprise would be aided by music from a  
local High school band why should they not have the  
opportunity of obtaining their services?"

"In the last analysis, these musical organizations are  
supported either by general taxation or through the ef-  
forts of the individual musicians, and any ulterior mo-  
tive to restrain their public activities must be looked  
upon with suspicion and destroyed with dispatch."

One of the motives back of the agitation mentioned  
in the Kane paper may be found in an Associated Press  
dispatch from Harrisburg today which says that the  
House education committee has before it a request by  
organized labor to prevent school musicians from "inter-  
fering with the employment or livelihood of private  
musicians."

This could be accomplished, says A. Rex Riccardi,  
Philadelphia, secretary of the American Federation of  
Musicians, by passage of the bill to prevent student  
bands from playing at functions other than their own.

Riccardi says the bill, introduced by Adie Rush, of  
Delaware county, is the result of what the Federation  
refers to as "Many abuses that taxpaying musicians must  
suffer because of the encroachment by high school  
musicians."

Many will agree with Executive Secretary Preston  
O. Van Ness, of the Pennsylvania School Directors' As-  
sociation, who opposed the measure at the hearing  
last evening, with the following argument: "Several  
hundred communities in Pennsylvania depend on high  
school bands and orchestras for patriotic occasions and  
days. If they are deprived of the use of these organi-  
zations, it doesn't mean they will hire other musicians.  
They haven't the money to do so."

### THE FARMER SPEAKS

If the Nazis win, we might as well kiss our export  
market for farm products goodbye," says Secretary of  
Agriculture Wickard, who insists that the stake of farm-  
ers in the conflict now going on is as great or greater  
than that of any other group.

Mr. Wickard knows what German domination of  
Europe will mean to world trade. The Nazi system of  
exploiting the peoples, as well as the resources, of con-  
quered nations means a revolution in economic affairs  
that will inevitably eliminate the competition of free  
peoples in the production of commodities for exchange.

There are some people in Warren county who have  
the idea that the agricultural problem of the United  
States revolves solely around surplus production. This,  
says the secretary, applies to cotton, wheat and tobacco,  
but it has no bearing upon pork, dairy products, eggs,  
tomatoes and some other foods.

When the fighting in Europe ends, "a large part of  
the world will be looking to the United States for food."  
Our farmers will be able to prosper in such a market but  
they will not have a chance if the outside world is dom-  
inated by Germany and their trade controlled by Nazi  
masters who will take it only upon their own terms.

Committees are busy planning exercises for Mem-  
orial Day, Flag Day and Independence Day. Looks  
like there'll be plenty of parading in Warren this sum-  
mer.

Folks who contribute to the community campaign  
now under way have good reason to stick out their  
chests!

Fashion says men's summer clothes will be about  
the same as last year. Except for a cleaning and  
pressing.

sword in their hand.—Psalms 149:6

He deserves praise who does not what he may, but what he ought.

### Smoke on the Horizon

## YOUR NATION'S CAPITOL

By Peter Edson  
The Times-Mirror Washington Correspondent

**Government and Retailers Plan  
Shock Absorbers for Public  
When Bread and Shoe  
Prices Go Up**

Washington, May 7.—One sure  
by-product of the current effort on  
the part of both business and gov-  
ernment to keep prices from  
climbing out of sight will be a big  
advance in consumer education, a  
movement on the part of retailers  
and manufacturers to tell custom-  
ers exactly what's in their product  
and why the price is what it is.

This fact stands out as one con-  
clusion resulting from Department  
of Commerce conference on con-  
sumer goods. The conference was  
promoted by the Retailers Advise-  
ry Committee, a business organi-  
zation which called in over 400  
representatives of 52 food, textile,  
clothing and other trade associa-  
tions to see where business fits  
into the government price control  
program.

This conference emphasized the  
fact that a majority of retailers  
have already adopted the far-  
sighted policy that it is to their  
advantage to keep prices down,  
to prevent price spirals, and fur-  
thermore to do this as much as  
possible on a voluntary, co-opera-  
tive basis without the benefit of  
government control or govern-  
ment price fixing.

This may not be the most  
world-shaking news to come out  
of Washington these days, but as  
it hits 130 million people in the  
pocketbook, right where they live.

It is fraught with significance at  
that, so here it is.

What is happening is that as  
more and more of the country's  
productive capacity is taken up by  
defense orders, less capacity is left  
for business-as-usual production  
for civilian use. At the same time,  
employment goes up, wages are  
going up, and there is greater con-  
sumer demand. The tendency is  
for the prices of consumer goods  
to rise because supply can't meet  
demand.

This has resulted in a number  
of things. There has been a cer-  
tain amount of scare advertising—  
telling people to buy now because  
prices were going up or to order  
now because there would be short-  
ages later. In an effort to keep  
prices at present level, quality  
has in some cases been sacrificed  
and the product cheapened, or  
substitutes have been put into the  
product.

A dress that fades, a shirt that  
shrinks, a sheet that splits, a \$3.50  
blanket that doesn't keep you  
warm after it has been washed.  
This, as Miss Harriet Elliott points  
out, is a downward spiral of qual-  
ity, and it is as much to be guarded  
against as an upward spiraling of  
price.

Here is where the further edu-  
cation of consumers comes in and  
this is one of the lines that Miss  
Elliott's consumer division in the  
Leon Henderson Office of Price  
Administration and Civilian Sup-  
ply is attempting to strengthen.

Realizing that housewives can't

talk in terms of economical theory,  
the language in the retailer's educa-  
tion of his customers must be  
reduced to understandable factors.  
A 1-cent rise on a pound of  
sugar or a quart of milk means  
more to the housewife than a 50-  
cent increase on shoes or a \$10  
increase in the month's rent.

The economics in a loaf of bread  
is also a tough one to explain.  
The farmer gets less than a cent  
for the wheat that's in the loaf  
which sells for 10 cents. Where  
does the other 9 cents go? Ex-  
plaining that to the consumer  
would help justify any increases,  
if and when necessary. Retailers  
feel it is a lack of understanding  
of the work of the processors and  
distributors that cause most of  
the confusion on price matters.

Another factor is the labor costs  
that enter into consumer goods.  
The food industries say that from  
65 to 70 per cent of the cost of a  
can of beans or any other food

### Glacier Park Surpasses Alps in Scenic Wonders

SIXTY glaciers give Glacier Na-

contribute only a part of the scen-  
ery for which this area is famous.  
A glimpse of Glacier's grandeur  
is pictured on the U. S. 9-cent  
stamp, above, of the National  
Park series.

The stamp design shows Two  
Medicine Lake with Mount Rock-  
well in the background. This view,  
near the east entrance, is one of  
the best known to tourists.

Glacier National Park is located  
in northwestern Montana, adjoins  
Canada's Waterton Lakes National  
Park, directly across the interna-  
tional border. The park covers an  
area of 1534 square miles, was  
created in 1910.

There are 19 principal valleys  
in the park, many of which have  
not been fully explored, and 250  
known lakes. Mt. Cleveland, 10,  
438-foot peak in the northern part  
of the park, is the highest point.  
The continental divide traverses  
the entire length of the park.

### HIGH SCHOOL MUSIC

Commenting on a subject which has been considered  
in this column, the Kane Republican has the following  
to say:

"Discussion continues to be extremely violent concern-  
ing the bill before the Pennsylvania legislature to limit  
High school bands and orchestras to performances in  
their own building or for purposes strictly in connection  
with the school activities.

"Whatever is back of this bill, and there are many  
reports placing this responsibility, it does not seem reason-  
able to force High school students to refrain from  
public spirited donations of their ability and talent. If  
a community enterprise would be aided by music from a  
local High school band why should they not have the  
opportunity of obtaining their services?"

"In the last analysis, these musical organizations are  
supported either by general taxation or through the ef-  
forts of the individual musicians, and any ulterior mo-  
tive to restrain their public activities must be looked  
upon with suspicion and destroyed with dispatch."

One of the motives back of the agitation mentioned  
in the Kane paper may be found in an Associated Press  
dispatch from Harrisburg today which says that the  
House education committee has before it a request by  
organized labor to prevent school musicians from "inter-  
fering with the employment or livelihood of private  
musicians."

This could be accomplished, says A. Rex Riccardi,  
Philadelphia, secretary of the American Federation of  
Musicians, by passage of the bill to prevent student  
bands from playing at functions other than their own.

Riccardi says the bill, introduced by Adie Rush, of  
Delaware county, is the result of what the Federation  
refers to as "Many abuses that taxpaying musicians must  
suffer because of the encroachment by high school  
musicians."

Many will agree with Executive Secretary Preston  
O. Van Ness, of the Pennsylvania School Directors' As-  
sociation, who opposed the measure at the hearing  
last evening, with the following argument: "Several  
hundred communities in Pennsylvania depend on high  
school bands and orchestras for patriotic occasions and  
days. If they are deprived of the use of these organiza-  
tions, it doesn't mean they will hire other musicians.  
They haven't the money to do so."

### THE FARMER SPEAKS

If the Nazis win, we might as well kiss our export  
market for farm products goodbye," says Secretary of  
Agriculture Wickard, who insists that the stake of farm-  
ers in the conflict now going on is as great or greater  
than that of any other group.

Mr. Wickard knows what German domination of  
Europe will mean to world trade. The Nazi system of  
exploiting the peoples, as well as the resources, of con-  
quered nations means a revolution in economic affairs  
that will inevitably eliminate the competition of free  
peoples in the production of commodities for exchange.

There are some people in Warren county who have  
the idea that the agricultural problem of the United  
States revolves solely around surplus production. This,  
says the secretary, applies to cotton, wheat and tobacco,  
but it has no bearing upon pork, dairy products, eggs,  
tomatoes and some other foods.

When the fighting in Europe ends, "a large part of  
the world will be looking to the United States for food."  
Our farmers will be able to prosper in such a market but  
they will not have a chance if the outside world is domi-  
nated by Germany and their trade controlled by Nazi  
masters who will take it only upon their own terms.

Committees are busy planning exercises for Mem-  
orial Day, Flag Day and Independence Day. Looks  
like there'll be plenty of parading in Warren this sum-  
mer.

Folks who contribute to the community campaign  
now under way have good reason to stick out their  
chest.

Fashion says men's summer clothes will be about  
the same as last year. Except for a cleaning and  
pressing.

### Government and Retailers Plan Shock Absorbers for Public When Bread and Shoe Prices Go Up

Washington, May 7.—One sure  
by-product of the current effort on  
the part of both business and gov-  
ernment to keep prices from  
climbing out of sight will be a big  
advance in consumer education, a  
movement on the part of retailers  
and manufacturers to tell custom-  
ers exactly what's in their product  
and why the price is what it is.

This fact stands out as one con-  
clusion resulting from Department  
of Commerce conference on con-  
sumer goods. The conference was  
promoted by the Retailers Advise-  
ry Committee, a business organi-  
zation which called in over 400  
representatives of 52 food, textile,  
clothing and other trade associa-  
tions to see where business fits  
into the government price control  
program.

This conference emphasized the  
fact that a majority of retailers  
have already adopted the far-  
sighted policy that it is to their  
advantage to keep prices down,  
to prevent price spirals, and fur-  
thermore to do this as much as  
possible on a voluntary, co-opera-  
tive basis without the benefit of  
government control or govern-  
ment price fixing.

This may not be the most  
world-shaking news to come out  
of Washington these days, but as  
it hits 130 million people in the  
pocketbook, right where they live,

it is fraught with significance at  
that, so here it is.

What is happening is that as  
more and more of the country's  
productive capacity is taken up by  
defense orders, less capacity is left  
for business-as-usual production  
for civilian use. At the same time,  
employment goes up, wages are  
going up, and there is greater con-  
sumer demand. The tendency is  
for the prices of consumer goods to  
rise because supply can't meet  
demand.

This has resulted in a number  
of things. There has been a cer-  
tain amount of scare advertising—  
telling people to buy now because  
prices were going up or to order  
now because there would be short-  
ages later. In an effort to keep  
prices at present level, quality  
has in some cases been sacrificed  
and the product cheapened, or  
substitutes have been put into the  
product.

A dress that fades, a shirt that  
shrinks, a sheet that splits, a \$3.50  
blanket that doesn't keep you  
warm after it has been washed.  
This, as Miss Harriet Elliott points  
out, is a downward spiral of qual-  
ity, and it is as much to be guarded  
against as an upward spiraling of  
price.

Here is where the further edu-  
cation of consumers comes in and  
this is one of the lines that Miss  
Elliott's consumer division in the  
Leon Henderson Office of Price  
Administration and Civilian Sup-  
ply is attempting to strengthen.

Realizing that housewives can't

talk in terms of economical theory,  
the language in the retailer's edu-  
cation of his customers must be  
reduced to understandable factors.  
A 1-cent rise on a pound of  
sugar or a quart of milk means  
more to the housewife than a 50-  
cent increase on shoes or a \$10  
increase in the month's rent.

The economics in a loaf of bread  
is also a tough one to explain.  
The farmer gets less than a cent  
for the wheat that's in the loaf  
which sells for 10 cents. Where  
does the other 9 cents go? Ex-  
plaining that to the consumer  
would help justify any increases,  
if and when necessary. Retailers  
feel it is a lack of understanding  
of the work of the processors and  
distributors that cause most of  
the confusion on price matters.

Another factor is the labor costs  
that enter into consumer goods.  
The food industries say that from  
65 to 70 per cent of the cost of a  
can of beans or any other food

### Glacier Park Surpasses Alps in Scenic Wonders

SIXTY glaciers give Glacier Na-  
tional Park its name, but they  
contribute only a part of the scenery  
for which this area is famous.  
A glimpse of Glacier's grandeur  
is pictured on the U. S. 9-cent  
stamp, above, of the National  
Parks series.

The stamp design shows Two  
Medicine Lake with Mount Rock-  
well in the background. This view,  
near the east entrance, is one of  
the best known to tourists.

Glacier National Park is located  
in northwestern Montana, adjoins  
Canada's Waterton Lakes National  
Park, directly across the interna-  
tional border. The park covers an  
area of 1534 square miles, was  
created in 1910.

There are 19 principal valleys  
in the park, many of which have  
not been fully explored, and 250  
known lakes. Mt. Cleveland, 10-  
438-foot peak in the northern part  
of the park, is the highest point.  
The continental divide traverses  
the entire length of the park.

## A Washington Daybook

By JACK STINNETT

WASHINGTON—It may be nothing for Joe Doaks to get  
jubilant about, but his income tax burden at its prospec-  
tive worst next year will be light compared to that of the En-  
glish taxpayer's, though it should be recalled that the English-  
man's additional taxes are fewer than the American's and that  
the per capita tax in England is 9

Under Mr. Morgenthau's pro-  
posals for increased levies on 1941  
incomes (payable in 1942), the  
\$2,500 net income married man  
without children would pay al-  
most seven times as much as he  
does now. His present tax is \$11;  
the treasury's proposed rates  
would boost it to \$72.

The English Joe Doaks in the  
same category, however, will con-  
tribute \$586, or eight times as  
much as the treasury would have  
the \$2,500 American donate for  
rising defense costs. Moreover,  
congressmen, familiar with the  
unpopularity of tax increases, may  
soften the blow somewhat.

However, the U. S. tax bill next  
year will be pretty terrific. Pro-  
posed increases in federal levies  
are figured to lift the total includ-  
ing state and local, \$22,000,000,000  
next year compared to about \$7-  
289,000,000 in payments by the  
English.

On a per capita basis that would  
represent \$167 for every man, wo-  
man and child in the United States  
compared with \$160 for every per-  
son in the United Kingdom.

Taxes, however, are not paid on  
a per capita basis. Experts here  
say the so-called per capita pay-  
ment is not a real gauge of the  
pinch on the taxpayers. The sim-  
plest way to measure that pinch,  
say the experts, is the compara-  
tive rates of taxation of persons in  
given income brackets, or the pro-  
portion of total tax levies to the  
taxpayers' income.

Per capita tax collections run  
higher in the U. S. than in En-  
gland because there are many more  
people in this country with larger  
taxable incomes. This is particu-  
larly true in the \$2,000 to \$10,000  
and even up to the \$50,000 income  
brackets.

### Little Income Hit Hard

THE little income fellow is hit  
particularly hard in England.  
Over there the childless married  
man with a net income of \$1,000  
will pay a tax of \$66 under the  
new war rates. If he earns \$1,500,

his tax will be \$232. The married  
man in this country with \$1,000  
or \$1,500 net income wouldn't  
have to pay any federal income  
tax, since the new plans retain  
the personal exemption of \$2,000  
for the head of a family.

The personal exemption for a  
married person in England is \$500,  
while that of a single person is  
\$320 compared with \$800 for the  
bachelor in the United States.  
The British surtax reaches a max-  
imum rate of 98 1/2 per cent, while  
the top surtax levy as proposed  
by the treasury would be 75 per  
cent on all incomes over \$5,000.

We have been under the im-  
pression that the Englishman  
didn't have to worry about the  
"hidden" tax bugaboo. However,  
his excise and sales tax rates are  
considerably higher than ours.

### As High As 24 Per Cent

THE English purchase tax—sim-  
ilar to a sales tax—is at a  
rate of 33 1/3 per cent on the  
wholesale price (about 24 per  
cent of the retail price) of such  
luxury goods as jewelry, toilet  
preparations, articles of real silk  
and furniture. The proposed U. S.  
excise tax on jewelry, musical in-  
struments and radios is 10 per  
cent of the retail price.

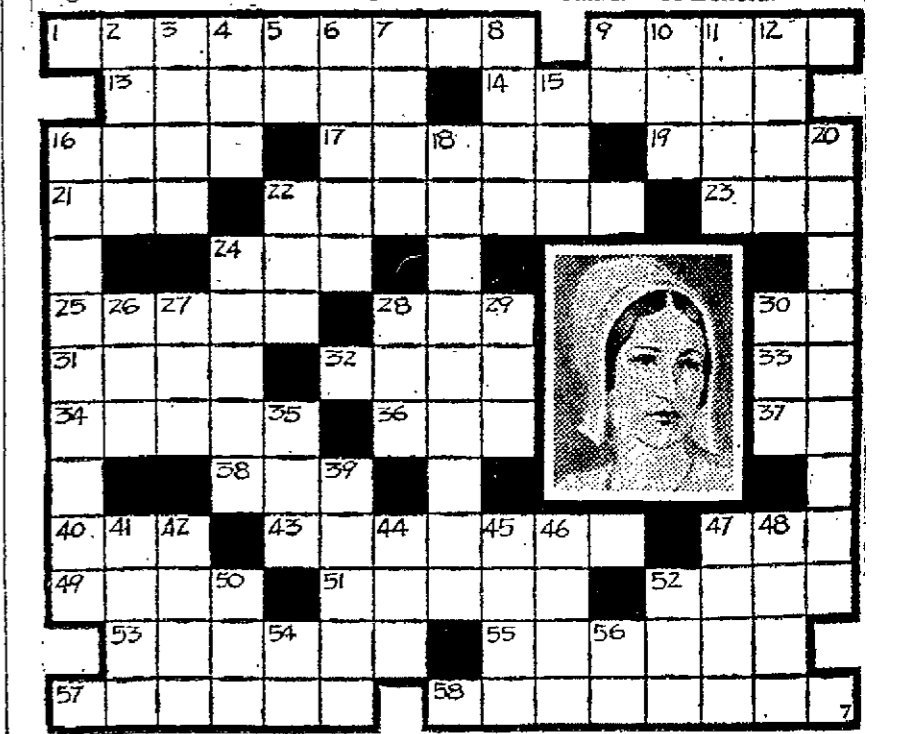

The English purchase tax on  
goods in common use, such as  
clothing, shoes, pots and pans, is  
about 12 per cent of the retail  
price. Such necessities as food,  
gas, coal, and medicine are ex-  
empt. Some of our states have  
sales taxes on almost all commodi-  
ties including food, but the max-  
imum rate is about 2 per cent.

For the privilege of enjoying a  
spot of liquor the bomb-harassed  
English Joe Doaks has to pay his  
government a pretty penny. The  
tax on distilled spirits over there  
is \$14 a gallon compared with a  
present \$3 and a proposed \$4 a  
gallon here.

John Bull's tax on cigarettes is 20  
cents a pack of 20, compared with  
a present federal 6 1/2 cents and  
proposed 8 cents a pack in this  
country.

CHURCH REVIVALS

AT STARBRICK CHURCH

A series of special services will begin tonight at 7:45 in the Starbrick Community church under the direction of Michael J. Anzalone, evangelist and radio revivalist. There will be services for the next three weeks each evening at 7:45 except Monday. Services also will be held Sunday afternoons at 3:00 o'clock.

Evangelist Anzalone has just concluded a series of meetings in the Clark auditorium in Russell with fifteen professed conversions. A special welcome awaits all at the Starbrick Community church. Good spiritual singing and up-to-the-minute Bible messages on salvation and prophecy await those attending.

Social study classes of Bealy school visited the Warren National Bank on Tuesday to study a chapter in banking.

In the bank employees' room, Jordan Overturf, assisted by Basil White and M. A. Connelly, demonstrated to the students a \$1,000 Baltimore and Ohio Railroad bond, a General Motors stock certificate for 30 shares, a mortgage and bills in denominations ranging from \$1,000 to \$1. Organization and conduct of a bank were also explained.

The students were then shown through the vaults, the different banking departments and the bank guard's watch. The operation of a Recordak machine was demonstrated among other features. Banking hours were mentioned and it was pointed out that these are not limited to the period from nine until three o'clock, but from 8:30 until, very often, late in the evening.

Pupils found the visit very interesting and instructive and a source of much enjoyment.

QUIET DIGNITY IN MAHOGANY

Mahogany, the favorite wood of 18th Century furniture designers contributes richness and beauty to this smart bedroom. Fronts of the chest and dresser are slightly bowed. The floral background is in keeping with the 18th Century bedroom suite design. This is one of the groups featured in Montgomery Ward's new Hallmark Quality Furniture Catalog.

STATE TO SEND LARGE NUMBER FOR FINAL TEST

The U. S. Army, inaugurating a new plan for inductions into the military service, called upon Pennsylvania today to send 18,967 registered men to army stations between May 21 and June 21 for final physical examinations, according to the Associated Press.

At the same time, Selective Service headquarters in Harrisburg announced that present induction stations at Philadelphia, Altoona, Pittsburgh, Wilkes-Barre and Harrisburg will become Army examination stations and three new stations will be set up at Scranton, Williamsport and Erie, effective May 21.

All of the men who pass the final physical examinations will be called by their local boards for induction into the army during June in the order in which they were cleared through the examining stations. It was stated.

In its new order, the Army gave no indication of the number of men who will be called for induction out of the 18,967 men ordered up for examination.

MARBLE EVENT AT M'CLINTOCK ATTRACTS MANY

At the second contest in the National Marble Tournament here, held last evening at the McClintock school before an enthusiastic crowd, Teddy Austin took the school championship.

The contest was close from the start, but reached the climax when Austin, the champ, and Carmen Colosimo, a lad of seven years, tied in the finals and had to play it off in an extra ring.

The entries from McClintock were considerably greater than at Lacy the previous night and indication are that a high peak in participation will be reached before the close of the tournament on Saturday.

The results of the McClintock tournament are:

Ring 1—Ted Austin, winner.

Ring 2—Teddy Gustafson, winner.

Ring 3—Carmen Colosimo, winner.

Ring 4—Neal DeStefano, winner.

In the final play-off of the above four, Colosimo and Austin tied. Teddy Austin, the McClintock champ, is 11 years old and lives at 108 Falconer street.

## Eastern Star Has Charming Wayside Inn Fete To Mark the 34th Anniversary of the Chapter

The Eastern Star Chapter entertained last evening with a social time marking the 34th anniversary of the institution of the local order. More than 100 members and guests found the room decorated with apple blossoms, violets and trillia. Miniature white picket fences enclosed small garden plots tastefully arranged at various points in the room to carry out the theme of the evening, "The Wayside Inn."

The worthy matron, Mrs. Margaret Hedges, greeted the acting matrons from Corry, Kane, Oil City and Jamestown, N. Y., and each responded, expressing the pleasure of the groups she represented. Other guests were present from Youngville, Sheffield and Sugar Grove.

A feature of the evening was a group of songs sung by Miss Viola Lindmark, with Miss Evelyn Wolstencroft, accompanist. Miss Anna Louise Kahl was presented and delighted her audience with a varied group of readings.

At the close of the program, guests made their way to the "Wayside Inn," following the sign to the "outdoor" dining room.

Here they were seated at small tables and served by attractive waitresses, in uniform and with headbands bearing the words "The Wayside Inn." Napkins were stamped with the same symbol. Tulpas from the gardens of members made an attractive background for the tea tables, and a gala effect had been obtained by the use of awnings and a large lawn umbrella loaned by G. A. Blomquist. Favors were small cakes in the form of May baskets and packets of garden seeds were presented from the "Wayside Garden."

From every standpoint, the evening's entertainment was a success and Mrs. Hedges expressed appreciative acknowledgement to Ruth Brown and Jessie Baisrow, in charge of the "Wayside Garden," and to May Belle Baisrow and Helen Braunschweiger and these assistants, in charge of the "Wayside Inn": Edith Ahlquist, Audrey Blomquist, Helen Broughton, Georgia Borden, Esther Burns, Fannie Cogswell, Charlotte Covert, Marjorie Dougherty, Althea Donaldson, Irma Eba, Edna Eby, Marion Hunter, Josephine Laskaris and Hilver Murray.

## Annual Banquet at United Brethren Is Enjoyed by Over 80

More than 80 women and girls of the United Brethren church attended the annual mother and daughter banquet held last evening at the church. Sponsors of this annual gathering are the three missionary units, the Women's Missionary Society, Otterbein Guild and the Friendship Circle.

Mrs. S. B. Caldwell and Miss Edith Shearer had charge of the program, for which Mrs. Chase Johnson was toastmistress. Tables were beautifully decorated in purple and white and centered with bouquets of apple blossoms.

The program was opened with a song of greeting to the mothers, presented by the following little girls: Jean Marlett, Bonnie Sherwood, Gladys Rapp, Carol and Patricia Caldwell, Doris Ann Fehman and Barbara Ann Frantz.

Bonnie Sherwood gave a recitation, "Loving Mother," followed by devotions conducted by the Otterbein Guild and a song by the Friendship Circle. Mrs. C. Donald Dibble, of Youngville, addressed an inspiring message to the mothers and Mrs. Lyle Shearer and Mrs. Evan Callahan sang a duet. The closing prayer was given by Mrs. Sara Thurston.

At the conclusion of the program, a short business session was conducted by Mrs. Mildred Frantz, president of the Women's Missionary Society.

The men of the church were in charge of serving the banquet and on the kitchen committee were the following: Mrs. Clarence Hepfinger, chairman; Mrs. James Weaver, Mrs. C. L. Robertson and Mrs. E. A. Gilson.

## Local Interest In Jamestown Tourney

A number of local contract bridge fans will be in Jamestown over the coming weekend for the two-day, eighth annual western New York bridge championships.

Mrs. Conrad Nelson, of that city and a frequent player in Warren, heads the tournament committee. Henry Hunzinger, of Warren, is a member of the advisory committee, which is headed by R. E. Needham, of Greenville, well known to tournament players and director of a number of games in Warren.

Entries close at 2:30 o'clock Saturday afternoon in the open pair championship, played in two sessions that afternoon and evening, and won last year by Charlotte Sidway and Robert Morris.

Winners of the team of four championship in 1940 were Joseph Mullen, Sylvester Mullen, W. H. Cummings and R. E. Needham. This match will be played in two sessions on Sunday, entries closing at 12:30 p. m., and the winners receiving the Nelson trophy.

A GIRLDE-WAISTED SHIRTFROCK

Pattern 4710

By ANNE ADAMS

Here it is—that city-or-country casual so indispensable for summer. Pattern 4710 is young, clean-cut and—best of all—an Anne Adams creation, which means the simplest of cutting, stitching and finishing. The easy-going, bloused top is gathered below the yokes that keep your shoulder-lines trim and neat. The classic shirtwaist style of the notched collar and the bodice buttoning may be softened by gay flowered or novelty buttons. One of the nicest features is that inset girdle that makes you look lithe and small-waisted. Gentle fullness is given the skirt by a smart front panel which emphasizes its slim lines. Though just short sleeves are shown, long and three-quarter versions are included in this useful pattern.

Pattern 4710 is available in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32. Size 16 takes 3 1/2 yards inch fabric.

Send FIFTEEN CENTS (15c) in coins for this Anne Adams pattern. Write plainly SIZE, NAME, ADDRESS and STYLE NUMBER.

STATE TO SEND LARGE NUMBER FOR FINAL TEST

The U. S. Army, inaugurating a new plan for inductions into the military service, called upon Pennsylvania today to send 18,967 registered men to army stations between May 21 and June 21 for final physical examinations, according to the Associated Press.

At the same time, Selective Service headquarters in Harrisburg announced that present induction stations at Philadelphia, Altoona, Pittsburgh, Wilkes-Barre and Harrisburg will become Army examination stations and three new stations will be set up at Scranton, Williamsport and Erie, effective May 21.

All of the men who pass the final physical examinations will be called by their local boards for induction into the army during June in the order in which they were cleared through the examining stations, it was stated.

In its new order, the Army gave no indication of the number of men who will be called for induction out of the 18,967 men ordered up for examination.

Classes Pay Visit To Warren National

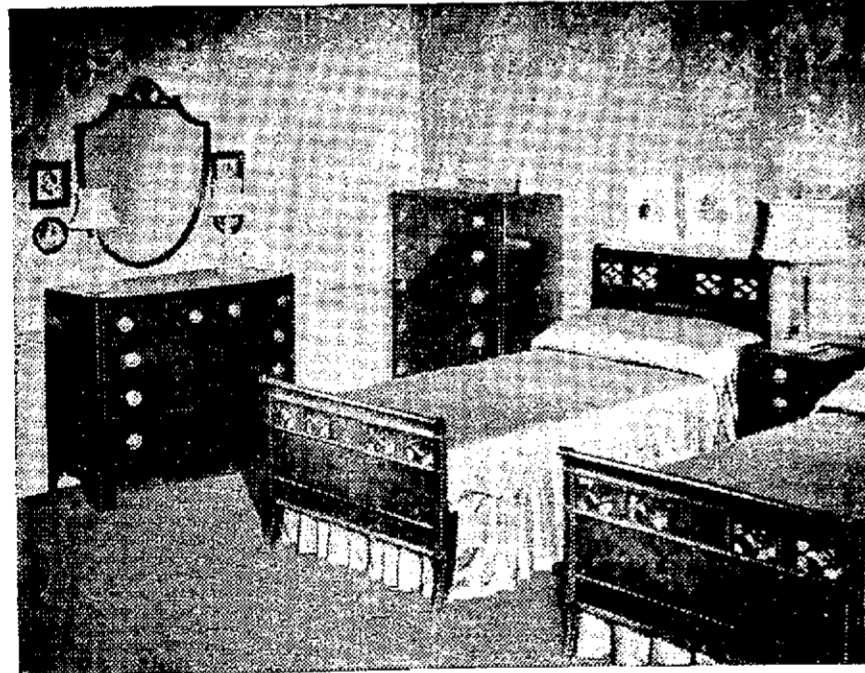

Social studies classes of Beaty school visited the Warren National Bank on Tuesday to study a chapter in banking.

In the bank employees' room, Jordan Overturn, assisted by Basil White and M. A. Connelly, demonstrated to the students a \$1,000 Baltimore and Ohio Railroad bond, a General Motors stock certificate for 30 shares, a mortgage and bills in denominations ranging from \$1,000 to \$1. Organization and conduct of a bank were also explained.

The students were then shown through the vaults, the different banking departments and the bank guard's watch. The operation of a Recordak machine was demonstrated among other features. Banking hours were mentioned and it was pointed out that these are not limited to the period from nine until three o'clock, but from 8:30 until, very often, late in the evening.

Pupils found the visit very interesting and instructive and a source of much enjoyment.

### Coming Players' Production Will Have Fast Tempo

FASTER! FASTER! FASTER!

That's the watchword as the cast of "Three Men on a Horse" prepares for the last week of rehearsal before the three-act comedy is presented to the Warren public Friday and Saturday, May 15 and 16.

Astrid Cowden, who is directing the spring play, has from the very start stressed tempo as the most important feature of "Three Men on a Horse," and as a result, local play-goers will see the fastest moving production ever presented by the Warren Players.

Three speed line rehearsals are on the schedule before opening night, the first to be held tomorrow evening. Dress rehearsal will be held Monday night, with the balance of the time spent on drills which will keep the action of the comedy moving at a fast pace.

While the actors and actresses concentrate on the tempo, "Red" Criswell's stage crew will go through similar drills so that the scenes may be shifted quickly and efficiently, thus eliminating long waits between scenes.

#### MOTHERS' CLUB ELECTS OFFICERS

The Home Street Mothers' Club held its last meeting of the season on Monday evening, with devotion in charge of Mrs. Ross Carlson, fifth grade teacher, and the president, Mrs. Rainer Forsgren, conducting the business session. It was decided to hold the unit's annual ice cream social on May 16, from 3:30 until 9:30.

The following officers were elected for the coming term: President, Mrs. Fred Plummer; vice president, Mrs. Leonard Nicholson; secretary-treasurer, Mrs. Robert Carlson. Mrs. C. F. H. Wuesthoff presented gifts to the teachers of the building from the club.

The meeting was then turned over to Mrs. F. E. Kieshauser for a game period, after which refreshments were served by Mrs. Leonard Swanson, Mrs. Earle Flohr, Mrs. Floyd Kuhre and Mrs. Frank Wood.

Eastern Star Has Charming Wayside Inn Fete  
To Mark the 34th Anniversary of the Chapter

The Eastern Star Chapter entertained last evening with a social time marking the 34th anniversary of the institution of the local order. More than 100 members and guests found the room decorated with apple blossoms, violets and tulips. Miniature white picket fences enclosed small garden plots tastefully arranged at various points in the room to carry out the theme of the evening "The Wayside Inn".

The worthy matron Mrs. Margaret Hedges greeted the arriving guests from Corry, Kane, Oil City and Jamestown. N. Y. and the guests were seated at tables. The evening was a success and Mrs. Hedges expressed appreciative acknowledgment to Ruth Brown and Jessie Baird, in charge of the "Wayside Inn", and to May Belle Baird and Helen Braunschweiger and their assistants, in charge of the "Wayside Inn".

A feature of the evening was a group of songs sung by Miss Viola L. Adams, Miss Evelyn Wolstencroft, accompanist Miss Anna Louise Kail was present and delighted her audience with a variety of songs.

At the close of the program, guests made their way to the Wayside Inn, following the sign to the "Wayside Inn" and were

Pattern 4710

By ANNE ADAMS

Here it is—that city-country, casual so indispensable for summer. Pattern 4710 is young, clean-cut and—best of all—an Anne Adams creation which means the simplest of cutting, stitching and finishing. The easy-going, bloused top is gathered below the yokes that keep your slender lines trim and neat. The classic shirtwaist style of the pointed collar and the bodice buttoning may be softened by a little ruffled or no ruffles at all. One of the new features is that inner bodice lining.

Send FIFTEEN CENTS (15c) in stamps for this Anne Adams pattern. Write plainly SIZE, NAME, ADDRESS and STYLE NUMBER.

You'll need plenty of "airproof" variety for warm days to come so order the Anne Adams Pattern Book TODAY! Its colorful pages show smart individual styles for every occasion—quick and easy to make in a simple-to-use pattern. There are morning and afternoon, party and street costumes, pajamas, dance and graduation gowns. Fashion tips, lingerie and a complete wardrobe in this new book of fashion—over 100 patterns.

## "Good Neighbors Build America"

## Less Than Half of Quota Raised First Two Days

(From Page One)

efforts proved to be encouraging in some factors and disappointing in others, with general agreement that full response from every source must be obtained to accomplish the purpose of filling the quotas necessary to reach the total amount asked.

The fifteen teams in the women's division, headed by Mrs. H. P. Stone, which are carrying on the intensive portion of the campaign, demonstrated their hard work in the number of subscriptions turned in. They reported approximately 40 percent of their quota subscribed on the first day and they plan to continue with renewed effort during the next few days.

The automotive, government, mercantile, chain store and schools divisions all were considerably under 50 percent of their quotas. The finance and professional divisions were more nearly complete and the industrial division about 55 percent filled.

Last evening's meeting was in charge of E. P. Wroth, Chest president. The program opened with invocation by the Rev. Harold C. Warren, pastor of the First Presbyterian church, and the singing of "America."

The second report meeting of the campaign will be held this evening following dinner at 6:15 o'clock at the Y. W. C. A.

Commenting today on the results of the first report meeting, Mr. Wroth stated that everyone realized that this year's campaign would require special effort, especially with so many appeals from outside sources being made. He stated, however, that with hard work on the part of all those in the campaign, the goal which has been set up "can and must be reached."

In order for the various organizations in the Community Chest to carry on their important work, Mr. Wroth said, it is necessary that the full amount of the goal be subscribed. While it is important that appeals from outside agencies be met, it is even more important that the work at home be carried on, he declared.

Those persons who give of their time and energy in such campaigns realize clearly that it is the conscientious thought of each individual subscriber that deter-

mines the results of cooperative effort, and that this thought is merited by the work being done here in our own community by the various welfare agencies and constructive institutions comprising the Community Chest organization with its annual appeal all consolidated into one effort carried on by public-spirited people, it was pointed out today.

A return to separate annual campaigns would be undesirable from the standpoint of workers and contributors alike, it was stated, and therefore it is urged that everyone solicited remember that a pledge to be paid in four payments, is to cover a year's life of the seven different organizations and should be so regarded, and not as a passing gift of relatively small amount. If every person approached looks at it this way, the Chest cannot fail and the community can once again be proud of its ability and willingness to meet the needs of less privileged people and those who make the community a better place in which

to live because of the excellent work of the organizations supported by the Community Chest.

### Coming Players' Production Will Have Fast Tempo

FASTER! FASTER! FASTER!

That's the watchword as the cast of "Three Men on a Horse" prepares for the last week of rehearsal before the three-act comedy is presented to the Warren public Friday and Saturday, May 15 and 16.

Astrod Cowden, who is directing the spring play, has from the very start stressed tempo as the most important feature of "Three Men on a Horse," and as a result, local play-goers will see the fastest moving production ever presented by the Warren Players.

Three speed line rehearsals are on the schedule before opening night, the first to be held tomorrow evening. Dress rehearsal will be held Monday night, with the balance of the time spent on drills which will keep the action of the comedy moving at a fast pace.

While the actors and actresses concentrate on the tempo, "Red" Criswell's stage crew will go through similar drills so that the scenes may be shifted quickly and efficiently, thus eliminating long waits between scenes.

#### MOTHERS' CLUB ELECTS OFFICERS

The Home Street Mothers' Club held its last meeting of the season on Monday evening, with devotion in charge of Mrs. Ross Carlson, fifth grade teacher, and the president, Mrs. Raimor Forsgren, conducting the business session. It was decided to hold the unit's annual ice cream social on May 16, from 2:30 until 9:30.

The following officers were elected for the coming term: President, Mrs. Fred Plummer; vice president, Mrs. Leonard Nicholson; secretary-treasurer, Mrs. Robert Carlson. Mrs. C. F. H. Wuesthoff presented gifts to the teachers of the building from the club.

The meeting was then turned over to Mrs. E. E. Kishauer for a game period, after which refreshments were served by Mrs. Leonard Swanson, Mrs. Earle Flohr, Mrs. Floyd Kuhre and Mrs. Frank Wood.

## Tidioute Bows 11-8 To Become Unbeaten Dragons' Sixth Seal

Warren High's old baseball nemesis, Tidioute, bowed to Coach Jake Leidig's undefeated tossers yesterday afternoon at Russell Field, but not before they had thrown a scare into the Blue and White with a 7-run rally in the last inning.

Coach Leidig started his ace southpaw, Dick Kifer, on the hill and Dick had the downer, slugging them only one hit in five innings. Bob Sedon took over and got through the sixth, but it took the fire department to get the visitors out in the finale, while Bennett was doing his stunt.

The Dragons kept pounding the offerings of McGraw and Knight, however, and eked out an 11-8 decision, which was aided by a half dozen errors by Tidioute.

Kifer, with a double and a single, was the big stick for the Dragons, hitting 1,000, and Vic Huffman also had a perfect day with two singles.

Philadelphia, May 7.—(P)—Federal Judge Robert N. Pollard today denied motions filed by J. Warren Davis, retired U. S. circuit court judge, and Morgan S. Kaufman, Scranton attorney, for more information about the government's case on which they will be tried on charges of conspiracy to obstruct justice.

Washington, May 7.—(P)—President Roosevelt nominated former Senator Sherman Minton of Indiana today to be a judge of the seventh circuit court of appeals, embracing Indiana, Illinois and Wisconsin.

Pittsburgh, May 7.—(P)—A federal grand jury today indicted William C. Salberg, former postmaster at Ridgway, Pa., on charges that he embezzled a \$1400 money order while postmaster.

Washington, May 7.—(P)—President Roosevelt's stomach condition was improved today and his fever had decreased. His physician, Rear Admiral Ross T. McIntire, preferred, however, that Mr. Roosevelt remain in White House residential quarters both today and tomorrow and keep a minimum of engagements.

rounded "by people who would stand up to me and say no, no, no," Churchill answered that "the difficulty is not to have more brakes put on the wheels. It is to get more impetus and force behind it."

Churchill told the House "we need a great deal more help from the United States, and I expect we shall get it."

Churchill met former War Secretary Leslie Hore-Belisha's criticism of production with this assertion: "We are making every month now as many heavy tanks as there existed in the British army at the time Mr. Hore-Belisha left the war office, and we shall very soon, before the end of this year, be producing double that."

"This takes no account of the immense production on foot in the United States," Churchill defended Eden's reticence about British dealings with Spain and Russia.

Churchill appeared restive under Lloyd-George's prodding. "The little white-haired Welshman lacked his old fire and his voice sometimes faded to inaudible whispers, but he turned on the heat in demanding a 'real war cabinet.'"

"I thank God for Mr. Stimson's speech," Lloyd-George declared, "but it is most important not to exaggerate what you are going to get, rather, how quickly you are going to get it."

"America can do more. If she is going to enable us to catch up and then overtake Germany, she has got to do infinitely more than any indication I have heard of up to the present moment."

James Forrestal, United States undersecretary of the navy, listened in the distinguished strangers' gallery. Ivan Maisky, the Russian ambassador, also was present.

gast said 125 to 150 German seamen were to be taken into custody here.

The seamen had been employed on various oil tankers and, as the vessels arrived in port, were replaced by American sailors. The Standard Oil Companies had no way of returning them to Germany.

Seventy-five immigration inspectors took part in the round-up, their warrants charging the seamen had violated the immigration laws of 1924 in overstaying their leave without permission.

The agents said sailors from passenger vessels were permitted to remain on American soil 30 days and those from freighters or other cargo ships 60 days.

### Warfare at Sea is Assailed

(From Page One)

tween U-boat warfare in 1917 and 1941 was interpreted in some quarters as veiled notice from the administration to Germany that there were limits to what the United States would tolerate.

Senate opponents of administration foreign policy said they regarded Stimson's address and Senator Pepper's speech in the Senate yesterday as trial balloons to ascertain the country's sentiment toward active involvement in the war.

Pepper urged joint action by the U. S. and British fleets. "After speeches by the President and Willkie," Senator Nye (R-ND) told reporters, "now come Pepper and Stimson. Today the organized interventionists will flood Washington with message supporting them."

"They are just some more trial balloons for involvement, but they can be quickly punctured if the unorganized majority who are against convoys can make their position known."

Stimson, who made no mention of convoys, spoke with gravity of Britain's imperiled lifelines and declared that Germany is making her peak efforts to sever those supply routes.

Berlin, May 7.—(P)—Secretary Stimson's suggestion that the United States fleet be employed to protect shipments of material to England prompted in Berlin today the comment: "The consequence of such a policy would be clear."

Authorized spokesmen referred again to the oft-stated German warning that any ship sailing through the blockade to England "which comes within the range of our torpedo tubes will be sunk."

But the spokesman appeared more interested in a statement to Stimson that the German blockade of England is contrary to international law.

"How come?" was the gist of the German comment. "It is impossible to support the thesis that it's all right for England to blockade Germany and even non-warlike European neutrals but that it's all wrong for Germany to try to do the same thing to England."

Twin Boards to Be Set Up By U. S. and Canada  
(From Page One)

announced on April 20. To this end, the twin boards will:

Coordinate the interchange of raw materials and manufactured products required for speedy assistance to Britain and other embattled nations, as well as for the hemisphere republics now bolstering their defense;

Synchronize the production of arms, planes and munitions so as to take full advantage of all present and planned manufacturing facilities, without duplication of effort; and

Collaborate in solving economic, industrial and financial problems to achieve the maximum defense and British aid results for both nations.

The twin boards, it was learned, will also make a long-range study of ways and means to "cushion" the economic after-effects of the war.

President Roosevelt is expected to name the American board in the near future, but no names were available today. Working plans meanwhile were reported being drafted in discussion on progress here and at Ottawa.

These working plans, it was said

## FIRE WEATHER STILL CRITICAL OFFICIALS SAY

The drying out effect of twelve consecutive days without rain subjects the forest areas in this section to severe fire danger. Lack of the usual April showers has held back plant growth and left brush and other debris on the forest floor in a tinder-dry state.

As a result of these unusual weather conditions, it was announced here today by Forest Supervisor R. F. Hemingway that the Allegheny National Forest was putting on 16 motorized patrols. These patrols will cover streams on foot where use is heavy and the risk from smokers and campers is great.

In general, fires start where the forest use is heaviest. A small percentage of smokers, campers and others using the forest area for recreation have yet to learn that it is through their careless acts that forest fires start. When we can get this small careless group to follow the simple rules stated herein, our forests will be comparatively safe from the fire menace.

1. Smoke only while stopping in a safe place, clear of all inflammable material; never while traveling in the woods.

2. Be sure your match is out. Break it in two before throwing it away.

3. Cigarette stubs should be crushed out with the heel. Never throw them in brush, leaves, or grass and above all don't be a "tipper".

4. Before building a camp or cooking fire get a free camp fire permit. Written permission to build fires on both public and private land is required by State law. Read the permit. Scrape away a spot 5 feet in diameter. Keep the fire small. Never build a fire against trees, stumps or logs and never go away and leave it burning.

5. Put fires out with water, drown the last spark.

These are simple rules of forest conduct, stated Mr. Hemingway. The woods-wise know and follow these rules. All others should learn

### Who Knows This Old House?

Hidden away in a dark corner of the Times-Mirror attic, a box of old electrotypes was found a few days ago. Many were too faded to use, but some splendid pictures of Warren and Warrenites of an earlier day came to light. If you know what house this is, please call 1320 or write to Metzger-Wright's. What we learn about it from you will be published later.

### Less Than Half of Quota Raised First Two Days

(From Page One)

efforts proved to be encouraging in some factors and disappointing in others, with general agreement that full response from every source must be obtained to accomplish the purpose of filling the quotas necessary to reach the total amount asked.

The fifteen teams in the women's division, headed by Mrs. H. P. Stone, which are carrying on the intensive portion of the campaign, demonstrated their hard work in the number of subscriptions turned in. They reported approximately 40 percent of their quota subscribed on the first day and plan to continue with renewed effort during the next few days.

The automotive, government, mercantile, chain store and schools divisions all were considerably under 50 percent of their quotas. The finance and professional divisions were more nearly complete and the industrial division about 55 percent filled.

Last evening's meeting was in charge of E. P. Wroth, Chest president. The program opened with invocation by the Rev. Harold C. Warren, pastor of the First Presbyterian church, and the singing of "America."

The second report meeting of the campaign will be held this evening following dinner at 6:15 o'clock at the Y. W. C. A.

Commenting today on the results of the first report meeting, Mr. Wroth stated that everyone realized that this year's campaign would require special effort, especially with so many appeals from outside sources being made.

He stated, however, that with hard work on the part of all those in the campaign, the goal which has been set up "can and must be reached."

In order for the various organizations in the Community Chest to carry on their important work, Mr. Wroth said, it is necessary that the full amount of the goal be subscribed. While it is important that appeals from outside agencies be met, it is even more important that the work at home be carried on, he declared.

Those persons who give of their time and energy in such campaigns realize clearly that it is the conscientious thought of each individual subscriber that deter-

## Tidioute Bows 11-8 To Become Unbeaten Dragons' Sixth Seal

Warren High's old baseball nemesis, Tidioute, bowed to Coach Jake Leidig's undefeated tilters yesterday afternoon at Russell Field, but not before they had thrown a scare into the Blue and White with a 7-run rally in the last inning.

Coach Leidig started his ace southpaw, Dick Kiefer, on the hill and Dick had the down-river sluggers eating out of his hand, allowing them only one hit in five innings. Bob Sedon took over and got through the sixth, but it took the fire department to get the visitors out in the finale, while Bennett was doing his stunt.

The Dragons kept pounding the offerings of McGraw and Knight, however, and eked out an 11-8 decision, which was aided by a half dozen errors by Tidioute.

Kiefer, with a double and a single, was the big stick for the Dragons, batting 1.000, and Vic Huffman also had a perfect day with two singles.

## Sports Round-up

New York, May 7.—(The Special News Service)—Larry MacPhail and two Johns Hopkins doctors have applied for patents on Brooklyn's new baseball safety caps. A source close to the Nova camp says a Nova-Joe Louis fight has been signed and sealed for the Yankee Stadium, Wednesday, Sept. 17, at \$27.50 tops. (No comment from Mike Jacobs). Preachiness tip: Bold Irishman has been reeling off mile trials in 1:40 flat just like nothing had happened. Don Budge's entry into the laundry business may be complicated a bit by the fact that he has received a draft questionnaire. White Sox now have a manager, coach and four players who received their early tutoring from Connie Mack.

**The Flatbush Mystery**  
How a guy who bags a Higbee and a Herman and a Reiser (X) Ever came up with an ash tray. When he went to get the Katsers.

X—Mr. Eddie Zaneck, the voice of Brooklyn, informs us the voices call the guy both "Reiser" and "Ryser."

**First Football Holdout**  
Jim (Swift) Lalanne, former U. N. C. back, has returned an unsigned contract to the Chicago Bears because it contained no injury clause. Lalanne uses a special foot pad to protect an old injury. Ed Dudley's friends hear he's making a big hit at his new post at the Broadmoor Club, Colorado Springs. Steve Webber, who popped the late Huey Long at the Sands Point Bath Club a few years ago, has returned to the fight racket as manager of Hobo Williams. Lots of guessing going on as to how much dough the Cubs got in the Herman deal. President Frank Calder calls a proposal for a group of movie big shots to put a Los Angeles team.

## ST. PAUL BACK TO NORMAL WITH END OF TOURNEY

St. Paul, Minn., May 7.—(P)—This town will go back to normalcy today, after a hectic 55-day program of the American Bowling Congress.

It is estimated that more than \$2,000,000 was left in town by the 35,000 bowlers and the fans who attended the pin-popping carnival. Some of the high ten minor event leaders was threatened on the final day, after the Vogels Brothers team of Forest Park, Ill., clinched the team even Monday with a 3,065 total. Bill Lee and Ray Farness of Madison, Wis., won the doubles with 1246; Fred Ruff, Jr. of Belleville, Ill., the singles via 745 total while Harold Kelly gave South Bend, Ind., its first tenpin title in winning the all-events with 2012.

All attendance records were broken, more than 150,000 customers clicking through the turnstiles. Twenty-five scores of 700 or better were chalked up in the singles for another new high. The previous top, 19, was set last year at Detroit.

Low scores to qualify for the \$200,000 jackpot are approximately 2,671 in the team event; 1125 doubles; 576 singles and 1795 in the all-events.

Only three "name" bowlers finished among the minor event leaders. New York's Tony Sparano finished third in the singles with 738 and when he got back to Gotham was drafted into the army. Nelson Burton, St. Louis, who collaborated with Virgil Gibbs in winning the doubles in New York in 1937, finished fourth in the all-events with 1965. Ned Day, the handsome match champion who is now in the bowling business with Harold Lloyd of the flickers, shot 1944, finishing in tenth place in the 9-game division.

Next year the meet moves to Columbus, Ohio, then to Buffalo, N. Y. The way bowling is growing and sweeping the country, Columbus will likely have 7,500 teams. More than 3,500 clubs already have made reservations for next year.

The prize list included:  
Two-man event:  
Ed Augustus-Harold Levan.  
Hazelton, Pa., 1314, 3460.  
Individual event:  
Eddie Hitch, Erie, Pa., 735, \$260.

## HERE'S A NEW ONE

Williamsport, Pa., May 7.—(P)—The Pennsylvania Athletic Commission has a new problem on its hands. Commissioner George J. Jones, Jr., says he has received a letter from union barbers here threatening to boycott all boxing shows referred by a barber who operates a non-union shop.

**RACES TO RACE**  
Burbank, Calif.—Joe Thorne's race car plant here is so busy making plane parts he will fly to Indianapolis to qualify for the Memorial Day auto race, fly back to Burbank to keep the plant going and then take a plane again to enter the race.

The capital of West Virginia was located at Wheeling from 1863 to 1870 and from 1875 to 1885.

## SPORT SCATTERINGS

If the city of Jamestown doesn't develop into one of the best sports centers in the tri-state region, it won't be through the lack of cooperation on the part of the businessmen. Nearly 400 attended the welcome-home dinner given the Falcons Monday night, and the whole town stood ready to turn out for the opening game yesterday in a stadium which is a credit to the city. This climax was reached because there were plenty of live wires who started the ball rolling, hundreds of willing workers and open-handed givers and a lot of businessmen who realized what organized baseball meant to Jamestown from a dollars and cents standpoint. The new municipal stadium is thought of by most as just a swell ball park, but it will ever stand as a monument to the far-sightedness of many individuals and the community as a whole. It is a fine example of the combined forces of capital and labor. Those who had the long green gave freely, and those who had nothing to offer except manual labor contributed just as generously. Both working shoulder to shoulder on a project which will mean plenty to Jamestown.

Don't think for a minute that the same spirit is non-existent in Warren. During the past two weeks your agent has heard from a number of fans and players who have offered to donate their time to fixing up Russell Field, providing the material could be found. Investigation of this possibility revealed that at this moment there is no suitable fill available without cost. Within a short time we hope to be able to announce that dirt can be had if there are sufficient men willing to stage a few work nights to screen it and re-surface the diamond. While it is a little late to organize a circuit, there is no reason why the field could not be utilized for independent ball and sandlot games this season. In 1942 we should be able to start back up the ladder down which baseball was unceremoniously hooted last year and this. Paste this guess in your hat: Russell Field will eventually become a site of scholastic athletics only, all independent sports finding a home in a recreational center which will be built and paid for partly by public subscription and partly by public funds, on a long-time basis.

And 1941 may be remembered as the year mushball came into its own. Already the City and Fraternal leagues are moving into sight, and meetings of managers of teams to enter both circuits are being held at the Elks Club tonight. Mushball has its advantages, of course. More can participate and make a decent showing for one thing. It can be played on a smaller surface, and the expense of conducting a game is negligible. It's certainly the next best thing to its big brother, but it has been many years since it was conducted on an organized basis. Back in the days when the depression put sandlot baseball on the shelf, softball had its heyday locally. Several loops were in operation; Ray Eysinger was elected czar and saw that each circuit operated with a minimum of bickering, and the over-lapping of teams was almost eliminated. Softball needs what baseball has always had—a head, whether it be one man or a board of several, to act as a governor and coordinator. When softball gets on this basis, we think you'll see its popularity with the fans increase steadily.

## YEARS AGO IN SPORT

May 7, 1921—George Olson, of Warren, and Kid Ketchell, of Salamanca, are expected to provide the fireworks for Al Martin's next boxing card staged here. However, a six-round between "Snookie" Miller and Bill Paris, a couple of good light-heavies, also will attract many local fans.

May 7, 1931—Johnson, Peterson, Odum, Draegert, Bemis and Wiltzie are the pitchers who will have a chance to perform with the Warren Pennsylvanians this season. These hurlers have been asked to report for practice tomorrow at the State Hospital diamond.

## GREENBERG SET TO START ARMY TRAINING TODAY

Detroit, May 7.—(P)—Lanky Hank Greenberg, reporting with the early birds at the military induction center, submitted today to another physical examination before being formally transplanted from the baseball diamond to an army camp.

There was no reason to believe, army officials said, that the findings of army physicians would differ from the draft board medical report which found Greenberg fit for military service. A Florida physician previously had recommended deferment because of the ball player's flat feet.

The Detroit Tiger star was one of 300 awaiting induction into the army. After reporting at 6:30 a. m. at his draft board office, Greenberg marched with other draftees to the induction center. Along the way passers-by shouted friendly farewells to Greenberg. At the induction center crowds thronged the entrance and Greenberg threaded his way through.

Greenberg was slated to leave at 2 p. m. for Fort Custer, army officials said. After blasting two home runs yesterday in his farewell appearance, 30-year-old Greenberg declined a 24-hour stay on his induction to permit him to appear today in the American League pennant raising ceremonies at Briggs Stadium, home of the Tigers.

"I've asked no favors and I'll accept none now," Greenberg replied when told of his draft board's belated decision. "I'll do my best to be a good soldier."

## Winning Streaks Of Tribe And Cardinals Are Finally Halted

By JUDSON BAILEY  
Associated Press Sports Writer  
The St. Louis Cardinals and Cleveland Indians are at the crossroads today, their winning streaks shattered and their pursers confronting them face to face.

After winning 11 straight, the Indians lost to the Washington Senators yesterday 5-3 and the Cardinals' ten-game string was snapped at Boston by the Braves, 5-4.

It was inevitable that their streaks would be interrupted. The question is whether they can keep up a consistent clip now that their stride has been broken.

Today and tomorrow the Indians will be up against the challenge of the New York Yankees and the Cardinals will collide with the Brooklyn Dodgers. If the league leaders blow these ventures, the races will be wide open again.

The Tribe was stopped through a two-base error by Ken Keltner. Jim Bagby and Dutch Leonard were locked in a tight pitching duel with the score tied 2-2 at the start of the eighth. With two out the Senators loaded the bases on two singles and a walk. Then Keltner let a bouncer by Ben Chapman go through him for two bases and two runs.

The Detroit Tigers nursed their incipient winning streak to five games and moved into second place with a 7-4 conquest of the Yankees as a farewell gesture to Hank Greenberg in the league's other game.

The highest-salaried, most valuable player in the American League was to be inducted into the army today and he paid his last respects to the 1941 baseball season by belting two home runs, the first he had hit in 15 games. Bruce Campbell also punched out a pair of round-trippers and young Johnny Gorsica pitched five hit ball.

The Cardinals outthit the Braves 11 to 6 and had a two-run lead until the bottom fell out in a five-run-fifth inning. John Grodzicki, fastball rookie, walked two men at the start of this frame, but made the next two fly out. Then Jim Brown muffed a grounder to fill the bases and the youngster was rattled to the extent of forcing in a run with another walk. Sam Nahem relieved him and was touched for four runs on singles by Maxie West and Eddie Miller and an error by Terry Moore.

The Dodgers celebrated their acquisition of Billy Herman by pummeling the Pirates 7-3. Dixie Walker got two home runs, including one with the bases loaded to break a tie in the seventh, Joe Medwick hit a circuit drive with one on, and Herman, who had been batting .194 for the Chicago Cubs, treated himself to a perfect day at bat with a double and three singles.

The Phillies pasted the Cincinnati Reds with their sixth setback in seven games 4-2 as the veteran Cy Blanton bested Johnny Vander Meer in a pitching duel. Vandy gave only six hits, struck out 11 and walked five, but Blanton was more effective in spacing five hits, fanning three and walking none.

## CONN-KNOX BOUT AT PITTSBURGH MAY 27

Pittsburgh, May 7.—(P)—Billy Conn, who has designs on Joe Louis heavyweight crown, will box Buddy Knox, Dayton, O., heavyweight, here May 27 in a 15 round, feature attraction of an outdoor show at Forbes Field.

The bout will be Handsome Billy's final tuneup before he steps into the ring against Louis in New York June 18.

Harry Bobo, Pittsburgh negro powerhouse puncher, will meet Lee Savold, of St. Paul, in a 10-round semi-final to the Forbes Field card which is sponsored by the Dapper Dan Club, a charitable organization.

The Cubs were crushed for the tenth time in 12 games as the New York Giants triumphed 5-3 on the four-hit hurling of old Carl Hubbell.

Hub fed a three-run homer to Hank Leiber in the first inning, then settled down to a masterpiece of pitching.

Brief Associated Press News Dispatches

Philadelphia, May 7.—(P)—Federal Judge Robert N. Pollard today denied motions filed by J. Warren Davis, retired U. S. circuit court judge, and Morgan S. Kaufman, Scranton attorney, for more information about the government's case on which they will be tried on charges of conspiracy to obstruct justice.

Washington, May 7.—(P)—President Roosevelt nominated former Senator Sherman Minton of Indiana today to be a judge of the seventh circuit court of appeals, embracing Indiana, Illinois and Wisconsin.

Pittsburgh, May 7.—(P)—A federal grand jury today indicted William C. Salberg, former postmaster at Ridgway, Pa., on charges that he embezzled a \$1400 money order while postmaster.

Washington, May 7.—(P)—President Roosevelt's stomach condition was improved today and his fever had decreased. His physician, Rear Admiral Ross P. McIntire, preferred, however, that Mr. Roosevelt remain in White House residential quarters both today and tomorrow and keep a minimum of engagements.

CONDUCT OF WAR APPROVED

Churchill met former War Secretary Leslie Hore-Beelish's criticism of production with this assertion: "We are making every month now as many heavy tanks as there existed in the British army at the time Mr. Hore-Beelish left the war office, and we shall very soon, before the end of this year, be producing double that."

"This takes no account of the immense production on foot in the United States," Churchill defended Eden's reticence about British dealings with Spain and Russia.

Churchill appeared restive under Lloyd-George's prodding. The little, white-haired Welshman lacked his old fire and his voice sometimes faded to inaudible whispers, but he turned on the heat in demanding a "real war cabinet."

"I thank God for Mr. Stimson's speech," Lloyd-George declared, "but it is most important not to exaggerate what you are going to get, rather, how quickly you are going to get it."

"America can do more. If she is going to enable us to catch up and then overtake Germany, she has got to do infinitely more than any indication I have heard of up to the present moment."

James Forrestal, United States undersecretary of the navy, listened in the distinguished strangers' gallery. Ivan Maisky, the Russian ambassador, also was present.

right and wrong. Earlier an alienist reported the farmer had the mentality of a "seven-year-old."

He told police he shot his wife to death with a .22 calibre rifle April 8 "to put her out of my misery because she had the asthma and was always sick."

A state trooper testified yesterday, however, that on one occasion Hogendover told him he shot the woman because she failed to sign a deed to their farm to permit him to secure relief.

Warfare at Sea is Assailed

(From Page One)

tween U-boat warfare in 1917 and 1941 was interpreted in some quarters as veiled notice from the administration to Germany that there were limits to what the United States would tolerate.

Senate opponents of administration foreign policy said they regarded Stimson's address and Senator Pepper's speech in the Senate yesterday as trial balloons to ascertain the country's sentiment toward active involvement in the war.

Pepper urged joint action by the U. S. and British fleets. "After speeches by the President and Willkie," Senator Nye (R-ND) told reporters, "now come Pepper and Stimson. Today the organized interventionists will flood Washington with message supporting them."

"They are just some more trial balloons for involvement, but they can be quickly punctured if the organized majority who are against convoys can make their position known."

Stimson, who made no mention of convoys, spoke with gravity of Britain's imperiled lifelines and declared that Germany is making her peak efforts to sever those supply routes.

Berlin, May 7.—(P)—Secretary Stimson's suggestion that the United States fleet be employed to protect shipments of material to England prompted in Berlin today the comment: "The consequence of such a policy would be clear."

Authorized spokesmen referred again to the oft-stated German warning that any ship sailing through the blockade to England "which comes within the range of our torpedo tubes will be sunk."

But the spokesman appeared more interested in a statement to Stimson that the German blockade of England is contrary to international law.

"How come?" was the gist of the German comment. "It is impossible to support the thesis that it's all right for England to blockade Germany and even now, being European neutrals, but that it's all wrong for Germany to try to do the same thing to England."

Twin Boards to Be Set Up By U. S. and Canada

announced on April 20. To this end, the twin boards, will: Coordinate the interchange of raw materials and manufactured products required for speedy assistance to Britain and other embattled nations, as well as for the hemisphere republics now bolstering their defense;

Synchronize the production of arms, planes and munitions so as to take full advantage of all present and planned manufacturing facilities, without duplication of effort; and

Collaborate in solving economic, industrial and financial problems to achieve the maximum defense and British aid results for both nations.

The twin boards, it was learned, will also make a long-range study of ways and means to "cushion" the economic after-effects of the war.

President Roosevelt is expected to name the American board in the near future, but no names were available today. Working plans meanwhile were reported being drafted in discussion on progress here and at Ottawa.

These working plans, it was said, probably would cover procurement and routing of strategic raw materials to factories urgently needing them; joint purchases of raw materials at better prices and elimination of counter-bidding; allotments of orders to avoid bottlenecks; and reduction of restrictions on normal trade.

Round-up Made of Nazi Seamen Around Gotham

gast said 125 to 150 German seamen were to be taken into custody here.

The seamen had been employed on various oil tankers and, as the vessels arrived in port, were replaced by American sailors. The Standard Oil Companies had no way of returning them to Germany.

Seventy-five immigration inspectors took part in the round-up, their warrants charging the seamen had violated the immigration laws of 1924 in overstaying their leave without permission.

The agents said sailors from passenger vessels were permitted to remain on American soil 30 days and those from freighters or other cargo ships 60 days.

Air Raids Continue Unabated

(From Page One)

Prime Minister Winston Churchill prepared to give the House of Commons the inside story on British reverses in the Balkans and North Africa and ask a vote of confidence in his war policies.

A Royal Air Force communiqué said that Iraqis who had captured a post along the Mosul oil line, cutting the flow of fuel to British-mandated Palestine soon after fighting started last Friday, had surrendered to British ground forces.

Though the communiqué did not identify the post by name, it apparently referred to Rutba, a wastelands station the British acknowledged Monday was in Iraqi hands.

The situation at the Habbaniyah airport, 60 miles west of Baghdad, was described officially as much easier following the withdrawal of part of the Iraqis from highland positions to the south.

Many of the guns with which the native troops had been pounding the base were reported silenced yesterday by repeated RAF bombardments.

Sharing attention with Churchill's appearance before Commons was the announcement from Moscow that Joseph Stalin had at last cast off his cloak of official anonymity to become premier of Soviet Russia.

foreign policy toward Germany, and said now "a further change seems to be indicated."

Molotov, now 50, was relieved of the premiership at his own request, declared a communiqué circulated today by Tass, official news agency. It explained he had signed repeatedly that "it is difficult for him to fulfill the duties of chairman of the Council of People's Commissars of the U. S. R. simultaneously with the duties of the people's commissar of foreign affairs."

He became, instead, a vice chairman of the council and retained his membership in the political bureau of the central committee of the Communist party, compact executive organization.

Stalin, secretary-general of the Communist party since 1922, has moved increasingly to the fore in recent months. Twice during Yagoda's visit here last month Stalin received the Japanese foreign minister, who signed for Japan a neutrality pact with Russia.

### FIRE WEATHER STILL CRITICAL OFFICIALS SAY

The drying out effect of twelve consecutive days without rain sub- jects the forest areas in this sec- tion to severe fire danger. Lack of the usual April showers has held back plant growth and left brush and other debris on the forest floor in a tinder-dry state.

As a result of these unusual weather conditions, it was an- nounced here today by Forest Supervisor R. F. Hemingway that the Allegheny National Forest was putting on 16 motorized patrols. These patrols will cover streams on foot where use is heavy and the risk from smokers and campers is great.

In general, fires start where the forest use is heaviest. A small percentage of smokers, campers and others using the forest area for recreation have yet to learn that it is through their careless acts that forest fires start. When we can get this small careless group to follow the simple rules stated herein, our forests will be com- paratively safe from the fire men- ace.

1. Smoke only while stopping in a safe place, clear of all inflam- mable material; never while trav- eling in the woods.

2. Be sure your match is out. Break it in two before throwing it away.

3. Cigarette stubs should be crushed out with the heel. Never throw them in brush, leaves, or grass and above all don't be a "tipper".

4. Before building a camp or cooking fire get a free camp fire permit. Written permission to build fires on both public and private land is required by State law. Read the permit. Scrape away a spot 5 feet in diameter. Keep the fire small. Never build a fire against trees, stumps or logs and never go away and leave it burning.

5. Put fires out with water, drown the last spark.

These are simple rules of forest conduct, stated Mr. Hemingway. The woods-wise know and follow these rules. All others should learn

them as a patriotic duty. EVERY- BODY LOOSSES WHEN TIMBER BURNS.
